REORGANIZATION OF UNIT.....	I
INACTIVATION OF UNIT.....	II

I. REORGANIZATION OF UNIT. 1. The 51st Tactical Hospital is re-organized effective 15 February 1958, under appropriate Unit Manning Document with capability as cited in Organization Table 5807, 31 January 1956, Paragraph 1 and 2b, Part I (Part IIB); strength of fifteen (15) officers and forty-nine (49) airmen. The above strength is not the authorized strength, but is the total of the Organization Table composition cited in Part II. Authorized strength will be as reflected in the current Unit Manning Document.

2. Personnel will be furnished from sources under control of Commander, Fifth Air Force.

3. This is a category F unit and is authorized Unit Essential, Base Support, and Field Support Equipment as listed in the Master Equipment Authorization List Organization Table Supplement with a basis of issue relating to above composition. The Unit Mission Equipment authorized column of Unit Authorization List will be prepared in conformance with paragraph 7e of Air Force Regulation 5-25 to indicate full allowances of non-variable equipment listed in Master Equipment Authorization List Organization Table Supplement in Column 3A for above organizational structure. The Unit Mission Equipment in-use column of Unit Authorization List will be reduced under provisions of paragraph 7h(1)(f) of Air Force Regulation 5-25 to align non-variable equipment authorizations with Unit Manning Document. Variable items, Table of Allowance 1-21 and Master Equipment Authorization List Organization Table Supplement, will be based on the Unit Manning Document strength of the unit. This unit is authorized additional equipment in Air Force Regulation 5-25 and the Unit Manning Document.

4. Reports will be submitted in compliance with Air Force Regulation 20-49.

5. Authority: Air Force Regulation 20-27 and Headquarters, Pacific Air Forces message PFOMO-M-3 22499, 24 January 1958.

II. INACTIVATION OF UNIT. 1. The 422nd Air Police Squadron is inactivated at Komaki Air Base, Japan, effective 15 March 1958. Unit reverts to control of the Department of the Air Force.

2. Personnel rendered surplus by this action will be absorbed in other units under control of Commander, Fifth Air Force.

General Order 11, Headquarters 5th Air Force, APO 925, dated 31 January 1958 (Continued)

3. Supplies and equipment rendered surplus by this action will revert to stocks to fill present and future requirements.

4. Organizational records will be disposed of in accordance with Air Force Manual 181-5.

5. Reports will be submitted in compliance with Air Force Regulation 20-49.

6. Funds will be disposed of and final reports submitted in accordance with current regulations.

1. (UNCLAS) The 459.1 funds for last year are being utilized for resealing of the Naha runway. At the request of the Installations Office, 313th Air Division, this office arranged for Naha Air Base to cite this year's 458 funds in the amount of \$1,000 for additional aggregate in order to prevent work stoppage. Upon completion of the project, actual billings from Okinawa Engineer District may make it possible to deobligate the 458 funds, if not a 458 project in the amount required to pay for the actual aggregate used will be required. Such a project is within the authorization limitation delegated to the Base Commander.

2. (UNCLAS) The third quarter (Base M&O) 3400 appropriation for commitment and obligation ceilings for Naha and Kadena Air Base have been received. Naha has been funded as follows: Commitment and Obligation - \$2,397,000.00 Kadena: Commitment - \$7,633.346.00, Obligation - \$6,968,198.00. For Naha this represents funding of 69% of the ABA. For Kadena this represents obligation authority which is 69% of the ABA.

(UNCLAS) Lt Col Laybourn made a staff visit to Naha for the purpose of assisting Comptroller and Supply Personnel for the coming Budget Review Committee Meeting to be held at Headquarters, 5th Air Force on 20 January 1958. Among the items reviewed were: Programming data utilized, formulas employed and justification.

(UNCLAS) Col Thomason, USARYIS Comptroller, indicated in a telephone conversation that the Army Comptroller was inclined to agree with our position that we should pay the Army only those amounts which have to do with cross servicing agreements which are not in dispute. In a number of cases we have taken the position that we are not authorized to pay the Army overhead charges which they have attempted to tack on to bills which they have rendered to us for items such as Quartermaster supplies. We have maintained, and 5th Air Force has concurred, that we are liable to the Army only for catalog prices and that it is the Army's responsibility to budget and pay for its own overhead personnel.

(UNCLAS) Discussions were held with the I.B.M. service representative from Japan with regard to equipment presently being used at both Kadena and Naha BEAMO offices and the possibility of obtaining greater capacity I.B.M. equipment for the future. Aspects of the transceiver network between this headquarters and Clark Field, Fuchu, and Taiwan were also discussed. Mr. Woodruff, the I.B.M. representative, had no information with regard to the transceiver network which we did not already possess. (Lt Colonel Laybourn 46136)

(UNCLAS) Discussion was held with Mr. Gibson of USCAR concerning USCAR's allegation that this headquarters has made purchases from unauthorized vendors, and has made payments improperly by means of U. S. Treasury checks. Coordination was effected with the finance offices of both Naha and Kadena to preclude any re-occurrence. Lists of authorized vendors were promised by Mr. Gibson, and it is planned that discussions will be held with the procurement office of this Division and the finance offices of Naha and Kadena. No further difficulty is anticipated. (Lt Colonel Laybourn 46135)

(UNCLAS) Lt Colonel Laybourn attended the materiel conference with representatives from SAMAF, and it was stated by SAMAF representatives that it would be necessary for the bases of this Command to budget for funds in fiscal year 1959 which in previous years had been budgeted for by SAMAF. It was further stated by the SAMAF officials that fiscal year 1958 funds, which SAMAF has, will be transferred to the 313th Air Division if the functions for which the funds were provided are transferred before the end of this fiscal year. Captain Gordon Claypoole, Finance Officer of Kadena, has been sent to Japan to attend a US Forces Japan conference on this subject. Captain Claypoole has been designated to represent Naha and Kadena Bases as well as the Division. Prior to his departure, he was thoroughly briefed on the Division position regarding the subject matters. (Lt Colonel Laybourn - 46135)

(UNCLAS) A conference was held between Lt Colonels Robertson and Laybourn of the Division, Captain Fischle of the Division, and Lt Colonel Kiick, Comptroller of Kadena Air Base, to assure that air installations projects which are capable of obligation this quarter have been or will be funded, and that reservations of funds will be made to enable the Division Procurement Office to proceed with negotiations for bids short of contract award during the third quarter of the fiscal year. Agreement was reached during this conference for both Kadena and Naha Bases. Lt Colonel Robertson agreed to attempt to obtain Fifth Air Force allotment of funds for one project which the air installations personnel of Fifth Air Force had informed him would not be funded this quarter. (Lt Colonel Laybourn - 46135)

(UNCLAS) A letter has been received from USARYIS by the 6313th Air Base Wing and by the 6431st Air Base Group concerning forecasts for reimbursable ordinance support for the 1959 Army Budget Execution Plan (called "Financial Plan" by the Air Force.) Coordination was effected between Kadena and Naha Bases with USARYIS and with the Materiel Directorate of the Division. During this fiscal year, USARYIS has repeatedly attempted to charge the bases of this command so-called

"overhead charges" in connection with cross-servicing agreements. In addition, USARYIS has requested reimbursement for a pro-rata share of RNU support for what they term "common use facilities" such as wharves and approaches, POL system, warehouse and open storage areas, and island-wide facilities. This Division has consistently resisted the payment of these charges which we consider unauthorized. A letter was received on the 10th of March 1958 stating that USARYIS concurs in principle with our earlier position for FY 58. They state, however, that the Army Budget Execution Directive (Financial Plan Directive) for FY 1959 directs that they seek recoupment for costs incurred by virtue of provided support to other DOD agencies, and they have requested that we program and budget for common use facilities and accessorial charges for supply support for FY 59. The Army informs us that they intend to place an overhead charge of 16% (sixteen percent) on supplies which we purchase from them and that they are requesting we budget for \$220,156 as a pro-rata share of the R&U support for common use facilities. The overhead charges would approximate \$675,581. In addition, the Army states that they have been directed to seek reimbursement for Air Force and Navy occupancy of MCA surplus and GARIOA housing. USARYIS indicates they will advise us later of their proposed charges, and they state that they are drafting an agreement for our review, comment, and/or concurrence. At this point in time, it remains the Division position that these unauthorized charges will not be paid. Fifth Air Force and the bases of this command have been kept fully informed of the developments in this regard and are being furnished copies of this latest letter from the Army. (Lt Colonel Laybourn - 46135)

(UNCLASSIFIED) Major Voith, Auditor General USAF, stationed at Kadena, has been examining P459.2 typhoon repair which is being accomplished as a result of the fiscal year 1957 typhoons. On 17 March, he conferred with the Division Comptroller and indicated that his examination had been completed. No commitment was made as to whether or not an Auditor General report will be written, or whether any deficiencies were found. (Lt Colonel Laybourn - 46135)

THIRD QUARTER OBLIGATION RATE

(UNCLASSIFIED) Conferences were held with Lt Colonel Kiick and Major Johns, Comptrollers of Kadena and Naha Bases, emphasizing the importance of a high rate of obligation of available funds for the third quarter of this fiscal year. INCREASED COMMITMENT AUTHORITY - KADENA AIR BASE

(UNCLASSIFIED) A telephone call to Lt Colonel Birdsall, Budget Officer Fifth Air Force, was made by Lt Colonel Laybourn, requesting an additional \$100,000 (one hundred thousand dollars) of commitment authority for Kadena Air Base. This commitment authority was requested as a means of assisting Kadena Air Base in reaching virtually one hundred percent obligation by 31 March. Headquarters Fifth Air Force fully understands and concurs that this commitment authority may or may not be fully utilized, but they are interested in the obligation rate rather than the commitment rate. A TWX was received on Wednesday morning granting the \$100,000 to Kadena.

COMMERCIAL MONEY ORDERS

(UNCLASSIFIED) Kadena Air Base has been selected as one of two Fifth Air Force bases to conduct a test of sale of commercial (American Express) money orders. A TWX from CINCPAC to CINCPACREP Ryukyus, a TWX from CINCPACAF to PACAF, and a copy of a TWX received through postal channels have been furnished by the Division Comptroller office to the Kadena Air Base Comptroller. Conferences have been held with American Express authorities, the Commander of the Air Force Postal Squadron on Kadena. No particular difficulties are anticipated. Sale of U. S. Postal Money Orders will be discontinued during the test. The American Express Company will sell postal money orders of a new speed type during the same hours that U. S. Postal Money Orders were formerly available. (Lt Colonel Laybourn - 46135)

1. PACAF REVIEW OF COMPTROLLER DIRECTORATE: (UNCLASSIFIED)

Lt Colonel Hunt, accounting and finance representative from PACAF, who visited Naha and Kadena Air Base comptroller shops, visited the Division Comptroller to present his findings in brief form. He indicated that follow-up is needed to either liquidate obligations or de-obligate prior year, both FY 57 and FY 58, obligations.

For Kadena, he recommended amounts be set aside against which units may draw local purchase supplies. He also recommended mechanization of the record keeping of the local purchase store at Kadena in a manner similar to that now in use at Naha.

No major discrepancies were uncovered. This office will take action to work with the bases to clear up the minor matters which were mentioned. (Lt Colonel Laybourn - 46135)

2. G.A.O. PROGRESS REPORT: (UNCLASSIFIED)

A telephone call was received from Mr. E. D. Cook, Senior G.A.O. representative on the island, who indicated that his team had finished disposal at Kadena, and that they were essentially finished with disposal at Naha and would complete all action at Naha the afternoon of 2 April. Requests for preliminary organization data, etc., have been made to the base commanders of Naha and Kadena.

Following the Easter holiday, Mr. Cook will request certain budgetary information from the Division Comptroller. One man will remain at Naha to continue his work in supply although the bulk of the team will journey to Japan.

As a matter of information, Mr. Cook indicated that a rather complete examination would be made of Marine activities, particularly in supply. (Lt Colonel Laybourn - 46135)

He will visit the resident auditors of Kadena and Naha. In cooperation with the resident auditors general, a luncheon is being planned, and briefings by the 313th Air Division are being prepared. In addition, arrangements are being made for a helicopter tour of Okinawa. (Lt Colonel Laybourn - 46135)

2. FUNDING OF SACRAMENTO AIR MATERIEL AREA FOR LOCAL PURCHASE ITEMS (Unclass): Considerable difficulty has been experienced by the bases of this Division during the course of the year in providing funds for Sacramento Air Materiel Area (SMAMA) to purchase items. The difficulty is brought about by the fact that supply catalogue prices have been consistently too low. This caused our bases to cite insufficient funds when sending purchase requests to SMAMA. In turn, SMAMA was required to request additional funds.

This headquarters directed earlier in the year that the bases provide funding at least ten percent over catalogue prices in order to expedite purchases. In addition, the bases had authorized SMAMA to deliver amounts less than ordered in order to expedite purchases.

On 15 April, during the course of a Fifth Air Force Comptroller Conference, Colonel Walker, Comptroller SMAMA, and Colonel Coolidge, Director of Procurement, SMAMA, presented an analysis of all procurement for Fifth Air Force accomplished by SMAMA during this fiscal year. It was agreed that, for the rest of this fiscal year, each base would provide SMAMA with funds by means of an obligating authority which is a document authorizing a lump sum against which SMAMA can draw to take care of differences in price between funds cited on purchase requests and actual prices required by vendors.

A TWX was received this date from Fifth Air Force confirming the agreement to furnish funds to SMAMA by obligating authorities. The obligating authorities issued will only provide funds for the differences in actual vendor price over and above specific funds cited on each purchase request.

1. REIMBURSEMENT FOR DETENTION OF MRS. MADELYN HITT (Unclass):

Mrs. Madelyn Hitt has been detained at Kadena Air Base since 14 April as a prisoner of the United States Civil Administration of the Ryukyus Islands. Mr. Steve Christmas, Comptroller of USCAR, was informed by the Division Comptroller that the 313th Air Division considered the expenses of quarters, meals, and companions as reimbursable from USCAR. Mr. Christmas stated that USCAR did not have funds available for this purpose inasmuch as all fines levied by the USCAR courts were turned over to the Government of the Ryukyus Islands, and that USCAR had not been able to provide for such funds in the USCAR budget.

He stated that it was the opinion of USCAR that such charges were payable by the Justice Department, District of Columbia, and that USCAR was, this date, requesting instructions from the Justice Department as to the means of reimbursement to the Air Force and the appropriate fund citations.

Inasmuch as Mrs. Hitt is still detained, these charges continue to accrue. Therefore, it is deemed advisable that only one bill be rendered after Mrs. Hitt's removal from the Air Force detention facility. (Lt Colonel Laybourn - 46135)

1. EXCHANGE COUNCIL MEETING (Unclas): The Division Comptroller, who is a member of the Ryukyus Central Exchange Council, attended the regular monthly Exchange Council meeting. The management of the Exchange was instructed to launch a study program to determine what prices by department can be reduced on Exchange items; further, to cease rounding off prices to the nearest nickel which was necessary when MPC's were used. (Lt Colonel Laybourn - 46135)

2. COMMAND MANAGEMENT REVIEW (Unclas): Pursuant to the instructions of the Executive Officer, a survey is being launched to the recipients of the Command Management Review, which is produced by the Office of the Division Comptroller, to determine whether or not the contents are useful and necessary, and to solicit suggestions for improvement. (Lt Colonel Laybourn - 46135)

3. REASSIGNMENT TO ZONE OF INTERIOR (Unclas): Captain Patrick C. Wells, who has been the Division Management Analysis and Statistical Services Officer, is being reassigned to the Zone of the Interior, departing on or about 5 May. Inasmuch as no replacement has been received for Captain Wells, the functions and activities for which he was formerly responsible will necessarily have to be considerably curtailed.

Suggest that any element of the Division Staff attempt to finalize with Captain Wells any and all possible transactions prior to his departure. (Lt Colonel Laybourn - 46135)

Obligations to date were discussed, as well as the planning for expenditures for the remainder of this fiscal year. Kadena plans to spend for the remainder of the year as follows:

Fixed costs, such as electricity, water, land rental, etc.....	\$831,000
Semi-fixed costs, such as TDY, petroleum, oil and lubricants, transportation.....	\$ 60,000
Contractual maintenance of equipment	\$ 52,000
Real property maintenance by contract	\$495,000
Supplies	\$150,000
New equipment	\$125,000
Installations projects	\$ 80,000
Plus any funds available from Fifth Air Force which may be derived and available because of slippages in the programs of other Fifth Air Force bases or PACAF bases.	

Not considering any possible additional money, Kadena plans to obligate \$1,680,000. (Lt Colonel Laybourn - 46135)

1. CURRENCY CONVERSION (Unclass): Informal information was received on 27 May that the old series of MPC (521 Series) was being converted to a new series of military payment certificates in Japan, Korea and the Philippines.

For some time, new series MPC has been on hand in the Kadena Finance Office with the status of property rather than money. The following action, coordinated with CINCPACREP RYUKYUS, was taken by both Kadena and Naha Air Bases:

Personnel in a transient status on Okinawa, who had old series MPC in their possession, were authorized to convert the old series MPC to U. S. greenback dollars. In addition, a U. S. Treasury check in the amount of the new MPC series on hand was deposited with the USARYIS Comptroller from whom the new series MPC had been obtained. Old series MPC will be turned in in due course.

No difficulties were experienced or are anticipated.

As a matter of information, despite numerous announcements and daily bulletin announcements, personnel of Kadena and Naha Bases continue to return to Okinawa with MPC in their possession. The requirement is very firm that personnel returning to Okinawa from MPC areas should convert to greenbacks before entering Okinawa. We are continuing our efforts to inform all Okinawa base personnel of this requirement. (Lt Colonel Laybourn - 46135)

2. (UNCLAS) MOAMA has referred disposition action on SA-16 aircraft 51-086 to Headquarters, AMC. (Capt MacNeill/48244)

3. (CONF) A visit was made by this headquarters to 6431st ABG in regard to refueling support of C-130 aircraft. Visit showed that hydrant refueling could be accomplished by facilities available provided approximately one-half mile of pipe line is connected to the present pump houses on either side of the runways with outlets on which to connect hose carts. Additional piping will be required regardless of parking area. Although this additional requirement will cause a shortage of hose carts with pumping capacity of 320 GPM, refueling could be accomplished with locally manufactured hose until the proper carts are available.

1. (UNCLASSIFIED) Our typhoon damaged RF84F aircraft remains out of commission for parts. Four items are required. The aft section was shipped by MOAMA in accordance with their message of 6 January 1958. One item has been reinstated at MAAMA for shipment. Follow-up action on the above items is being taken today by the 6313th ABW for date and method of shipment. The two other items have received no action by SAMAP. This office initiated follow-up action today. The 6313th ABW sent follow-ups on 4 January 1958. (M/S Smith/48102)

2. (CONFIDENTIAL) The scheduled airlift of one Buda Generator 100KW from Kadena to ATF 13 (Prov) was cancelled due to nonavailability of aircraft. ATF 13 (Prov) was advised of this delay and given a new date of delivery, approximately 9 January 1958. They were requested to provide airlift in the event generator was required prior to 9 January 1958. This generator was directed to be airlifted to ATF 13 (Prov) by Fifth Air Force to meet operational requirements of the Security Service Units on Taiwan. (M/Sgt Hollin/42108)

3. (CONFIDENTIAL) CINCPACAF has sent a follow-up message to CINCUSAC on our message regarding waiver of technical orders on thrust augmentation for B-52 aircraft. Present tech orders require water with more than 50 parts solids concentration per million parts be demineralized prior to use in thrust augmentation and/or ADI mixtures. Kadena water averages 320 parts per million and difficulty is being experienced in maintaining demineralizers in a serviceable condition. 1. /Secret/ Mr. Brown, NAMAP Weapons System, Major Nigh, SAMAP Weapons System, Major Spencer and Capt George, Hq, 5th AF arrived this headquarters on 8 January to discuss and bring this headquarters and the 6431st Air Base Group up to date on matters pertaining to the phase-in of C130A aircraft of the 21st T.C.S. The following were matters of interest to Air Supply:

a. AFSD (Air Force Supply Directive) Supply Action. It was learned that NAMAP currently has approximately 1200 Line Items at that AMA for the 21st T.C.S. 850 of these items represented the availability of Depot stocks prior to AFSD. The balance are items that have been shipped in error by SMAMA rather than held for bulk shipment. It was agreed that NAMAP would hold this stock until the AFW account was assigned to Naha and this headquarters would advise date that we desired shipment. Naha Air Base was furnished a list of these items, all being spares. The balance of the AFSD items will be shipped to Naha from the ZI assembly point approximately May or June 1958.

b. Naha Air Base was also furnished a list of consumed items at Ardmore Air Force Base, Oklahoma. This list will be used to requisition items not appearing on the support tables II (Air Frame) III (Engine) and XVI (Comm) or will be screened by the Base Supply Officer and we will request the Weapons Manager to provide automatic shipment. The procedure used depends on the volume after screening.

c. Naha Air Base currently has status decks on all 5 AFSD's and will maintain these decks in order to be aware of items that have been supplied. However, since all 5 AFSD's are consigned to NAMAP, status cards will be forwarded by the ZI AMA's to NAMAP. Mr. Brown stated he would have these cards forwarded on our AFSD's.

d. Copies of Vol XX, AFM 67-1 are not available this headquarters or Kadena for distribution to Naha. Major Nigh stated that he would forward these from SAMAP.

2. This office can foresee no major problems in supply support provided AFSD's receive a favorable fill rate and our requisitions to augment AFSD's receive favorable action.

1. (UNCLASSIFIED) A staff visit was made to the 18th Field Maintenance Squadron on 8 January 1958 to discuss the supply assistance required on the MJ-3 Hyd test stand. The 18th Fighter Bomber Wing has submitted two messages to Headquarters, SAMAP, information Headquarters, Fifth Air Force, indicating supply difficulty on the MJ-3 test unit. However, no specific items (parts) assistance was requested. Major Gilmartin, 18th Fighter Bomber Wing Maintenance Officer, stated "A wire was sent to the Memphis depot. Memphis replied, 'The 18th should use the MJ-3 manufacturers' parts catalog for ordering parts,' as the MJ-3 is not stock listed." The 18th Fighter Bomber Wing ordered parts in accordance with the above instructions and have received a few parts. This headquarters is sending a letter to the 18th Fighter Bomber Wing and 6313th Air Base Wing requesting a supply assistance request be submitted in accordance with AFR 67-82 to include all details, i.e., stock numbers, requisition numbers and follow-up information, if any. The 18th Fighter Bomber Wing was further advised that all supply assistance requests would be forwarded to this headquarters through the 6313th Air Base Wing. (M/Sgt Nabors/48244)

They were accompanied during their inspection by Captain R. S. Mikesell of this directorate. Visits were made to the disposal activity at both Kadena and Naha. They asked for and received the following information: (1) Dollar value of the base supply account; (2) Dollar value of stock levels; (3) Dollar value of excess on hand; (4) Dollar value of excesses awaiting disposition instructions from the depot; (5) Dollar value of Code 27 awaiting disposition from the materiel redistribution division.

a. One item of discussion was the policy of demilitarizing M-series vehicles. They stated that DOD policy had changed to provide that these vehicles would be sold. Information was provided them that USARYIS had recently reaffirmed the policy of demilitarization due to non-availability of spare parts on the commercial market for prospective buyers which would result in pilferage from military sources. Another matter of concern was safety on the public roads due to inability to maintain these vehicles in a safe condition.

b. A visit was made to the office of procurement, this division, to obtain information on disposal sales being conducted, percentage of return to the government in relation to the acquisition cost of the materiel and any problems relative to the selling of disposal items.

Subjects discussed included purpose of the team, manning, training, controls, responsibilities, reports, and SOP's. Primary problem discussed was the immediate requirement of replacing 55 members of the team with personnel having MOT's of more than 10 months. This action to replace personnel departing Okinawa during the first 9 months of 1958 was taken so that the newly assigned members could realize the benefits of the training classes currently being conducted at Andersen AFB. One NCO has been assigned to full time duties as the NCOIC of the team to assist the team chief in maintaining records, training schedules, technical orders, and other matters pertaining to the team. (M/Sgt Dykstra/48244)
2. (UNCLASSIFIED) Message received from WRAMA stated that Messrs Robert S. Moore and Ralph A. Moulton, Fire Control System Technicians, will be dispatched to this command on or about 3 February 1958 for a period of 60 days to render assistance to the 51st Fighter Interceptor Wing on E-4 Fire Control System. (Capt Wheelis/40130)
3. (UNCLASSIFIED) Mr. Glassman and Mr. Burnham, SAMAF Contract Technicians, arrived to complete Installation Inspection Certificates for C-E Schemes of 6313th Communications Squadron. (Capt Wheelis/43130)
4. (UNCLASSIFIED) Mr. E. K. Maxon, SAMAF Contract Technician for Air-Mod, arrived for site survey of AN/TRC-24 Schemes. (Capt Wheelis/43130)
5. (SECRET) Hq Fifth Air Force has advised that PACAF has recommended a change in the prestockage authorizations at Futema. This change will delete ECL 670013 (Station set for troop carrier type aircraft) and replace it with SLOE 5707 (Equipment for PACAF Dispersal Units including F-100 type Aircraft). This indicates a change in the EWF planning for this area and will probably be reflected in the next CMDO with D-Day 1 July 1958. (M/Sgt Hollin/42108)

7. A meeting was held at this headquarters on 27 January with representatives from Supply Division and Office of Procurement, this headquarters, and materiel and supply personnel from 6313th ABW and 6431st ABG. Subjects discussed were:

- a. The use of additional copies of organization requisitions as purchase requests for local purchase type items in lieu of retyping DD Form 14-1165 as outlined in AFPI 3-604 and Section 10, Volume I, AFM 67-1.
- b. The use of traveling requisitions for local purchase type items requisitioned by the retail store.
- c. Resolution of other mutual problems between procurement and supply personnel at the bases.
- d. Consolidation of disposal activities with the Army.
- e. It was announced to the representatives of the bases that the Tokyo Central Purchasing Office had phased out as of 15 January and supplies and equipment which were not available on the local market would be purchased by Sacramento AMA. (Capt Mikesell/41123)

2. (SECRET) Fifth Air Force has directed that four F-6 refueling units from Project Sea Weed at Kadena be sent to Yokota by the most expeditious means. Units were processed for shipment and one unit is scheduled to depart Kadena on Flight 516 on 29 January 1958. A call was placed to MSTS at Camp Zama by Mr. Huffman, USARYIS/IX Corps regarding the possibility of diverting a ship into Okinawa to pick up the other three. The only ship available would arrive at Yokohama on 6 February 1958. Fifth Air Force is being advised that we can ship by water to arrive o/a 6 February or by individual air shipments through regular MATS scheduled flights with the last unit arriving 5 February. 2. (SECRET) A visit was made to the Directorate of Materiel, 6313th Air Base Wing, to appraise them of the revised Fifth Air Force OPlan 126-58 which will require support by the 6313th Air Base Wing units. Under the revised plan, the 6313th Air Base Wing units must provide housekeeping personnel to the 15th TAC for deployments to Tao Yuan and support to the 18th Fighter Bomber Wing at Tainan. The support problem is compounded since personnel must be identified and cannot be the same for both bases since deployments could come simultaneously. At present the amount of equipment and facilities available at the deployment bases is unknown, therefore, planning will be on a bare strip concept and deletions will be made when ATF 13 (F) support capabilities are made known.

3. (UNCLASSIFIED) Mr. Paul L. 1. (SECRET) Summary of present status of RF-101C conversion program: USAF has announced a slippage in the aircraft production schedule. The 20 aircraft for 15 TRS will be produced during July and August 1958. Based on this, we can expect the first aircraft to arrive here no earlier than September. (All aircraft will be air-delivered.) However, if USAF delays delivery until all aircraft are accepted from the manufacturer, arrival here might not be until December. Spares and equipment are, at present, scheduled for surface shipment from ZI on 1 March 1958, with arrival at Kadena 30-45 days later. The Mobile Training Detachment is currently scheduled to be at Kadena 1 May - 31 August, however, USAF indicates this will be put back to conform with slippage in aircraft delivery. The MB-35 simulator is now being assembled in the ZI; date of arrival at Kadena is not firm at present. (Capt Doren/44203)

2. (UNCLASSIFIED) Fifth Air Force forwarded to PACAF a list of critical items of equipment for the provisional squadron on 23 January 1958. PACAF was requested to obtain from AMC automatic shipment of the equipment due to the fact that this unit can not requisition due to not being a numbered Air Force unit. (M/Sgt Smith/48102)

3. (UNCLASSIFIED) Disposition of F-86F excesses. SAMAF advised on 30 January 1958 that Colonel Harrington would hand carry disposition instructions on 4 February 1958. Kadena Base Supply requested an immediate reply confirming receipt of requisitions. SMAMA, McClellan AFB, requested by message additional information relative to the request for the 500 ft cable. Additional information desired was forwarded on/about 7 Jan 58. SMAMA message received acknowledging receipt of requisitions. Priority follow-up message sent by Kadena Air Base on 16 Jan 58 requesting procurement action taken and requesting airlift of cable from Travis AFB. SMAMA message received on 27 Jan 58 advising that action being taken to obtain a formal bid for cable. No purchase order has been assigned to date. Will advise procurement status as soon as possible. 1. (UNCLASSIFIED) MSTs has accepted the responsibility of providing cargo transportation support by LSM for the Air Force on Ie Shima. This command has requested Army-Air Force Cross-Servicing Order and Acceptance Number 7158-075-6 be terminated. The services against this order have been payable by the Finance Officer, Kadena Air Base out of P433.5 funds at the rate of \$385.00 per round trip for use of Army LCU harbor craft to support Ie Shima site. The use of MSTs ship (LSM) costs the Air Force nothing additionally since it is paid for on a full time per diem basis anyway. Thus, a net saving of \$385.00 per trip in 458 funds to Ie Shima is realized. (CWO Vincent/42133)
2. (UNCLASSIFIED) Arrangements were made with Mr. Gomez, Chief, Bendix Mobile Team, to calibrate radio-radar test equipment for the 6318th A&E Squadron and 51st Field Maintenance Squadron. This will provide calibrated equipment with depot level standards. Calibration will be accomplished by Bendix engineers at Site 56 upon completion of the annual overhaul at that station. 5. (UNCLASSIFIED) SAMAP message PSSC-2-321-E dated 7 February 1958 was received stating that all peculiar items pertaining to the B-26 aircraft are to be disposed of. Message further stated that this was authority for disposal of all items pertaining to the B-26 aircraft and that this headquarters should disregard all previous messages. The interpretation of this headquarters on information received was that all B-26 spares could be transferred to the Disposal Officer for further disposition. Kadena Air Base has been instructed to take necessary action to effect transfer of all B-26 spares to Disposal Officer as soon as possible. by this directorate from Fifth Air Force and Headquarters PACAF pointing out the complacency of unit commanders relative to their responsibilities for administration of the supply of their units. This deficiency and the failure of supply officers and supervisory supply personnel to adequately discharge their responsibilities for maintenance of property records has become a matter of serious concern to this and higher headquarters. To insure both maximum utilization of supplies and equipment and maximum economy of operation, and to provide accurate and sufficient records for public property, it is essential that all personnel be familiar with and accept their responsibilities for such property. 1. (UNCLAS) Headquarters PACAF has declared that the precedence rating and mission category of units will be UNCLASSIFIED when reference to only one unit is made. When reference is made to the precedence rating and mission category of more than one unit, the security classification will be the same as PACAF Manual 67-1. (M/Sgt Hollin/42108)

2. (UNCLAS) Capt Reddick and M/Sgt Hollin made an informal staff visit to 51st FIW Materiel Section, the 6431 ABC Materiel Section, and Project Sea Weed. A written report will be submitted. (M/Sgt Hollin/42108)

3. (UNCLAS) F-86D AOCF: Information received from COANA that 24 each NLC wheels have been released for shipment from that AMA. This will remove all aircraft AOCF for this item. (M/Sgt Smith/48102)

4. (UNCLAS) In consonance with recent Fifth Air Force letter modifying that headquarters' restrictions on expenditure of funds, the bases are being informed this date of the rescission of letters this headquarters, subject: Actions Necessitated by Funds Shortage, dated 11 September 1957 and 21 October 1957. Local control on funds will be at the discretion of each base commander. It is being recommended, however, that each commander establish a reserve level of funds below which spending would be subject to appropriate controls, in order to insure availability of funds for mission requirements. This, of course, would not apply during the fourth quarter. (Capt Doran/44203)

5. (UNCLAS) Investigation to determine usability of the crane-shovel located on Kadena Base Supply excess lot revealed that the item had been given depot rebuild in 1956 and not been used since and was therefore in a near new condition. Disposition instructions are being sent to 6313th ABW to remove the item from excess storage and issue to the 6313th Installation Squadron to replace a similar item which is approaching the uneconomically repairable status. (T/Sgt Caffrey/44203)

6. (UNCLAS) Recent receipt of additional 21 cabin and 60 troop spaces on MSTs Vessels, plus opportune airlift of thirty (30) air spaces on Detachment 2 aircraft (being returned to ZI for IRAN) all together have effectively cleared up most of Personnel PCS backlog to CONUS. This backlog has been a continuing problem since the beginning of the Tour Curtailment program last fall. Space requirement reporting system did not allow for procurement of sufficient allocated personnel transportation spaces. Opportune and "Space Available" transportation had to be found and utilized. This has been touch-and-go since November 1957. For example, January 1958 began with approximately 55 carry-overs from December, after getting out a large number of curtailtees in December. Some 200 unanticipated returnees were moved out to the ZI in January, also. This left still some 50 carry-overs for the current month. Additional unanticipated returnees have been generated in February. However, the sun has broken thru the overcast, and Personnel Pipeline feels a breather is definitely at hand, barring unforeseen developments. Finally, no PCS personnel returning to ZI were delayed more than a very few days.

1. (UNCLAS) Major James P. Goss Jr., and T/Sgt. Crenshaw will proceed to Detachment 3, 623rd Aircraft Control and Warning Squadron to perform a staff assistance visit. The visit will be made on 14 February 1958. The purpose is to determine if the site has any outstanding communications problems. (Major Goss/40130)

2. (UNCLAS) Major Webb, Staff Communications Officer, 623rd Aircraft Control and Warning Squadron, reported that a survey is being conducted to determine the conditions which surround the reported missed-intercepts due to communications failure in an effort to find where the fault lies. (Major Goss/40130)

3. (UNCLAS) Representatives of this office completed a staff assistance visit to Site 54 on 11 February 1958. The purpose of this visit was to establish and instruct personnel in maintaining the Technical Order files. A visit will be made to Site 53 on 14 February 1958 for the same reason. (T/Sgt Myers/40130)

4. (SECRET) Capt Reddick and M/Sgt Hollin made an informal visit to the Blue Shield Team Chief for the purpose of assisting the Team Chief in resolving personnel assignment problems, and reviewing action initiated upon recommendations listed in previous staff visit reports. Major problems were the availability of personnel with sufficient retention time in the theater for assignment to the team and coordination with the staff agency within 6313th Air Base Wing. A follow-up visit will be made on 19 February. (M/Sgt Hollin/42108)

5. (UNCLAS) The following technological developments are listed in view of the recent interest displayed by staff sections on these subjects:

a. TM76A-MATADOR MACE: USAF ground to ground missile used by TAC, made by Martin Company, this missile has a span of 29 feet, weighs 7 tons, with a speed of 650 plus MPH. Powered by a J-33 with RATO, the missile has a range of 650 plus miles. Unit is equipped with an inertial guidance system.

b. WS-110A - Weapon System Intercontinental Bomber: A proposed replacement for the B-52 and B-58 bombers, this aircraft is to be produced by North American Aviation. The finished product will fly at MACH 3 at altitudes ranging to 125,000 feet and will be able to cover distances equal to the distance from Chicago to Moscow and return without refueling. This will be made possible by using a new fuel, probably boron. (M/Sgt Hollin/42108)

6. (UNCLAS) The F-86D main landing gear wheel reject rate was 66.1% as of 0800, 14 February 1958. Inspection has revealed that wheels manufactured in 1955 are also cracking due to fatigue and age. (M/Sgt Dykstra/48244)

7. (UNCLAS) Mr. M. F. Newman, General Electric radar Tech Rep, has been relieved from temporary duty of providing technical assistance to the 25th Fighter Interceptor Squadron on the B-4 fire control system and has been directed to return to his primary assignment at Site 55. Fifth Air Force has questioned this headquarters' utilizing Mr. Newman in this capacity and has requested full justification of our action. Our message answer dated 11 February 1958 stated,

in effect, we believed the urgent need completely justified our temporary use of Mr. Newman on E-4 fire control problems and that it was the prerogative of this command to do so. However, the recent arrival of two technicians from WRAMA has made it possible to return Mr. Newman to Site 55. (Capt Wheelis/40130)

1. (CONF) Headquarters SAC has announced the following policy regarding prepositioning of ADI components:

a. Demineralized water is not required for B-52 post strike staging missions.

b. B/RB47 missions will not require demineralized water if local water supply is not in excess of 600 parts solids per million.

c. KC 135 and KC 97 missions will require demineralized water when local water supply is in excess of 50 parts solids per million.

Under this policy, Kadena will require demineralized water for only KC 135 and KC 97's. All local projects for construction of demineralized facilities are to be held in abeyance pending publication of the SAC schedule of peace time deployments. (M/Sgt Hollin/42108)

2. (CONF) Gadson Depot is shipping one each element assembly for the Sea Weed demineralizers. Seven each assemblies have been placed on back order. Upon receipt of the assembly, Kadena will have the capability of producing 200 gallons of demineralized water per hour. (M/Sgt Hollin/42108)

3. (UNCLAS) Request was sent to Fifth Air Force for special consideration in filling vehicle requirements at Kadena Air Base from excess vehicles generated in the Japan area. Specific vehicles for which the request was made were 11 each station wagons for 6313th Transportation Squadron and 3 each chassis-trailers for 15th TAC Recon. The requirement for these items has become urgent since submission of the quarterly vehicle requirements report on 21 January 1958. (T/Sgt Gaffrey/44203)

1. (UNCLAS) Power Cable: No reply received to date on Kadena Air Base's priority emergency follow-up message for 500 feet and 1200 feet of ungrounded cable, from SMAMA. Second priority emergency follow-up submitted on 14 February 1958 reiterating the critical status on Kadena Air Base for these items. An immediate reply has been requested from SMAMA. (M/Sgt Pearlstein/44203)

2. (UNCLAS) Reply to request for disposition instructions on Air Force owned pile driving barge located at Naha Port has been received from Mobile Air Materiel Area. Instructions are to process as USAF excess property in accordance with Volume XIII of AFM 67-1, which deals with disposal of excess property. The disposal of subject barge will be of considerable advantage as the problem of maintaining the barge in storage has been expensive and troublesome for the past eight months. (T/Sgt Caffrey/44203)

3. (UNCLAS) Major James P. Goss, Jr. and T/Sgt Otto Crenshaw are making a staff assistance visit to the 6313th Air Police Squadron to determine the effectiveness of the Base Security Communications System. (Major Goss/40130)

4. (UNCLAS) T/Sgt Reginaldo P. Lopez will proceed to Detachment 1, 623rd AC&W Squadron for the purpose of performing a staff assistance visit on motor vehicles. (Major Goss/40130)

5. (UNCLAS) Mr. Kiser, SAMAP Engineer, has completed his survey of the Kadena Telephone Exchange materials. It is his opinion that we have sufficient materials on hand to request an installation team from Rome. He will so recommend this to SAMAP. (Major Goss/40130)

6. (UNCLAS) Fifth Air Force has deleted that portion of 5th AF Reg 66-20 titled: Jet Engine Trend Analysis, which requires measurement of eyelid separation immediately after each engine shut-down, pending revision of afore-mentioned regulation. (Capt MacNeill/48244)

Eleven of these trailers are currently in Base Supply excess yard earmarked for disposal. None are in serviceable condition at present, but, by interchanging parts with others destined for salvage, three serviceable complete trailers can be obtained. (T/Sgt Caffrey/44203)

2. (UNCLAS) A message and FEAF Forms 21 were forwarded to SALAF on this date, requesting technical assistance for the repair of the rigid radomes. The caulking compound has separated from the panels causing excessive leaking in the radomes. (T/Sgt Crenshaw/40130)

3. (UNCLAS) Captain Wheelis departed for Fifth Air Force on 19 February 1958 to attend a conference on Contract Technical Services Personnel. (T/Sgt Crenshaw/40130)

4. (UNCLAS) Headquarters, PACAF has advised that a PACAF Maintenance and Supply Assistance Team will visit Kadena and Naha Air Bases from 25 to 28 February 1958. Purpose of the visit will be to assist in on-spot resolution of problem areas and to assist in establishing required management programs. Areas of interest for maintenance teams will be as follows: (a) Management and Operation of the Aircraft Maintenance Organization, (b) Field Maintenance Activity, (c) Periodic Maintenance Activity, (d) Green Door Project, and (e) Vehicle Maintenance. Areas of interest for supply teams will be as follows: (a) Screening and establishment of stock level ceilings, (b) Hi-Valu Program, (c) Repairables, (d) Review of Supply Improvement Program, AFR 67-143, (e) Unit Authorization Lists, (f) Inventory Accuracy, (g) Publication Requirements Tables, and (h) Stock Balance and Consumption Report. Major Brant, a member of the assistance team, will visit the modification center at Kadena Air Base. (Captain MacNeill/48244)

5. (UNCLAS) At a briefing held in this headquarters 19 February, the commander and key Materiel and Auditor personnel from each base were informed of the impending visit of a team from the General Accounting Office. This team, working directly under Congress, will examine all phases of our Supply management during the approximate period 1 April - 30 May. Presentation included discrepancies and corrective action to be taken prior to the team's visit. (Capt Doran/44203)

1. (SECRET) Information received from Headquarters Fifth Air Force that the 6023rd Radar Evaluation Flight (ECM) will transfer from Johnson to Naha Air Base in August 1958. Within the near future, a Fifth Air Force movement order will be developed and distributed to agencies concerned. This order will direct the movement of equipment, parts, and spares from Johnson to Naha Air Base. (M/Sgt Smith/48102)
2. (SECRET) In reference to paragraph 1 above, SAMAP advises that, due to the present improved Pacific Logistics Program and the SAMAP Phase Down Program, SAMAP will support Naha Air Base on a fill or extract basis for supplies applicable to the B-29 aircraft. Support by SAMAP will be as follows: Cost Category 1 Hi-Valu until 15 May 1958, and Cost Category 2 until 1 April 1959. Subsequently, support after these dates will be provided direct from continental US depots. SAMAP emphasizes that their depot will not stock back-up stocks in support of this aircraft but will retain theater monitorship. (M/Sgt Smith/48102)
3. (SECRET) In reference to paragraph 2 above on SAMAP resupply procedure. This headquarters takes exception to the follow-on support procedure established by SAMAP and is advising them to this effect. We are endeavoring to obtain direct continental US resupply for this aircraft. (M/Sgt Smith/48102)
4. (SECRET) Capt Mikesell and M/Sgt Smith of the Supply Division visited the 6431st ABG to discuss the programmed movement of a detachment of the 24th Helicopter Squadron from Komaki Air Base, Japan, and the proposed movement of 6023rd Radar Evaluation Flight from Johnson Air Base, Japan, to Naha. A meeting was in progress between the Commander 6431st ABG and his staff and representatives of the 24th Helicopter Squadron and 315th Air Division. Subjects discussed were movement dates, suitability of support for the detachment at Naha, landing facilities at the AC&W sites, supply and maintenance support by Naha, and the method of transferring supply support responsibility from Komaki and NAMAP to Naha. (Capt Mikesell/41123)
5. (UNCLAS) Maintenance problem on transient H-19 aircraft was resolved through coordination between Major Palmatier and Sgt Dykstra. 1. (UNCLAS) This command has been directed by Fifth Air Force letter to dispose of the unit property records of the units of the former 18th Air Base Group as of 1 October 1958. AFM 67-1 provides for these records to be continued in use upon inactivation and simultaneous activation under a different numerical designation. Therefore, these records were continued in use by the units of the 6313th Air Base Wing. Headquarters Fifth Air Force was advised of this and they again directed that the records be disposed of and that new records be established for the new units. This headquarters is requesting reconsideration of this directive and permission to continue using the old records under authority contained in AFM 67-1 since the accomplishment of these records would require many man hours from our already over-burdened supply activities. (M/Sgt Bowman/48102)

2. (CONF) This headquarters has been requested by Third Air Division, to hold in abeyance any action to convert Area C of the permanent hydrant system from 115/145 to JP-4. 5. (UNCLAS) Major James P. Goss Jr. of this directorate and three SAMAP representatives made an informal visit to Site 56 to determine the degree to which rigid radomes need repairs due to corrosion, leakage, and other forms of deterioration. It was discovered that the radomes at Site 56 were in very good condition. A coat of red lead primer on the bolts gave the impression of the bolt's being corroded; but, upon further investigation, it was found that this compound is protection against vibration loosening the nuts from the bolts. The leakage was due to inadequate caulking compound. This problem should be solved within the very near future when SAMAP receives additional compound. A visit will be made to Kume 13 March. 2. (UNCLAS) Meeting of Ryukyus Interservice Supply Support Committee: USARYIS Headquarters:

A. Captain Reddrick represented this headquarters at the regular monthly meeting of the Ryukyus Interservice Supply Support Committee. The primary subject discussed was the consolidation of the production of all gaseous products under one agency (Army). The Army can, at the present time, meet all production requirements for all gases except liquid oxygen. By obtaining the liquid oxygen generating unit from Kadena, they could assume all production responsibilities. The Air Force takes the position that they must maintain production capabilities for training of personnel and to meet IWP commitments. The Air Force will re-evaluate their position and a final decision will be reached at the next meeting.

B. The Air Force will also be prepared to report on its study for the Consolidation of Property Disposal Activities.

3. (SECRET) RF-101C Weapon Phasing Conference: NAMAF: An AMFPA-sponsored RF-101C Weapon Phasing Conference held at NAMAF 11 March 1958 was attended by Capt Doran. Surface shipment of spares and equipment will be made 1 June 1958. (Originally, shipment was scheduled for 1 March 1958.) Spare tables are now 90 per cent complete. Equipment items are still only about 50 per cent complete. In view of equipment shortage, there is a possibility PACAF will ask USAF to delay our conversion to the RF-101C. PACAF decision will depend on the results of a theater-wide screening of a listing of substitute equipment items now being prepared by the Support Manager at OAMA. Listing probably won't be sent to this theater until about 1 April 1958. If decision is to go ahead with conversion, flight of first increment of aircraft to Kadena will probably be during period 1-15 September 1958. PACAF tanker support on Hawaii-Kadena leg is doubtful at present, so tentative plans for logistic support at enroute points are being made. PACAF will resolve this matter within 30 days. 1. (UNCLAS) Accuracy in Transportation Requirements Forecasting.

a. The following important USAF message was received 27 March 1958 thru PACAF.

"UNCLAS/AFMTP-RA-1, ALMAJCOM 529/58. This message in four (4) parts. Part I. Of increasing concern to the JCS and this headquarters is the number of changes occurring to states airlift requirements. Such changes occurring after an allocation have a cumulative effect on the MATS operation to the extent that schedules are disrupted, thereby affecting the air logistical support of Air Force and other Services overseas activities, or the payload capability of aircraft cannot be effectively utilized. In addition, such changes have a more profound and determinable effect in terms of actual expenditure of funds which could have been avoided through proper programming. Part II. Submission of changes to airlift requirements indicates a definite need for improved staff programming and planning to insure that requirements as submitted represent the actual requirement. Continued changes, either increase or decrease, cannot be sustained if a reliable air logistic support is to be achieved and Air Force funds effectively utilized. The need for special type airlifts is recognized, however, the continued and frequent changes to these requirements cannot be reconciled with adequate and appropriate guidances in planning and programming such airlifts. Part III. Effective immediately, this headquarters will not accept requests for airlift or changes to airlift requirements after an allocation except for urgent emergency requirements which cannot be accomplished by any other method. Requests will include adequate and complete justification indicating A. The impact to specific identifiable projects or programs if airlift is not provided or if changes are not made as requested. B. Availability of other means of transportation to meet this requirement and C. Reference to specific directive from this headquarters requiring the change. Part IV. Your immediate recognition of this matter is essential particularly with the forthcoming Industrial Funding of MATS where actions or inactions resulting in changes to requirements will be charged to funds available for your command!"

(UNCLAS) Rations Drawn by Commissaries. Mr Frank Unten, Chief of Class 1 Unit, Stock Control Management Section, Quartermaster Depot Machinato, provided the following information on Air Force commissaries drawing subsistence supplies, as of 28 March 1958.

Kadena Air Base: 4700 rations daily. (Figure includes support of 2 sites.)

Naha Air Base: 4000 rations daily. (Figure includes support of US Navy personnel and 4 sites.)

There is some indication that the number of daily rations requested at Naha has been too high. Effective 31 March 1958, Naha figures have been reduced to 3600 per day. Mr. Joseph Nemeth, 313th Air Division Food Services, is currently comparing ration requests with assigned strength figures for both bases. (Mr. Nemeth/44203)

1. (UNCLAS) Modification of Radio Set GRC-27 for Continuous Duty Cycle Operation. As a result of a conversation between Major Goss, this headquarters, and Major Beaulah, Headquarters Fifth Air Force, this command will be able to exchange five of our present T-217 transmitters and MD129 modulators with NAMAP for transmitters and modulators which have already been modified. This procedure will continue until all our equipment has been properly modified. This distribution must also be shared with AACCS. (Major Goss/42121)

2. (SECRET) F-102 Conversion. Fifth Air Force has rejected a proposal by this headquarters to reschedule the arrival of the 5 "permanent party" Hughes Aircraft Company Contract Technicians, (trained in MC-10 Fire Control Systems). The proposal requested that 5 Hughes technicians be scheduled for arrival in November 1958 rather than January 1959 in order to expedite training program on the MC-10 FCS. Fifth Air Force advises that, with the augmentation of ZI trained personnel, 4½ months lead time will be sufficient for the Contract Technicians. Fifth Air Force has concurred in 313th proposal to augment the conversion team with 1 Hughes engineer, and 2 Hughes technicians to arrive concurrently with the aircraft (15 May). The Mobile Training Detachment is presently scheduled to arrive 1 January 1959. (Capt MacNeill/48244)

3. (UNCLAS) Supply of J-33-A-35 Engines. At the present time, NAMAP is supplying J-33-A-35 Engines on AOCF requisitions only. This is due to a backlog in repair channels. NAMAP has advised that normal supply of subject engines will resume on/about 15 May 1958. (S/Sgt Stover/48102)

Seaton from the C&E branch, Aircraft Supply Division, Directorate of Materiel, Headquarters Fifth Air Force, arrived at this headquarters on 4 April 1958 for the purpose of performing a staff visit to the AC&W activities. Primary interest of his visit is supply support of AC&W sites. His visit was prompted by the low effectiveness of AC&W support revealed by an operational readiness inspection conducted by Headquarters Fifth Air Force. He will be accompanied by M/Sgt Bowman, this headquarters, and Capt Hickie, 623rd AC&W Squadron, on visits to all the AC&W sites. Estimated duration of Capt Seaton's visit is 15 days. 2. (UNCLAS) Telephone Repairs in POL Area. Additional information as to the type of equipment and system required to repair the telephone system in the Kadena POL area has been discovered. This information will now permit the Base Communications Officer to begin the repair and construction of an adequate telephone system in the POL areas. It is anticipated that, within the next four weeks, the system will be completely repaired. (Major Goss/40130)

3. (SECRET) Project White Horse Communications Maintenance Deficiencies. This office has been requested to look into the weak areas of communication maintenance as reported in the Kadena Task Force Report on "Operation White Horse" (M-27) Report and to determine the ability of the base to adequately perform such a mission at this time. This has been done and it has been determined that the base is far more capable of performing such a mission today than it was at that time for the following reasons:

- a. Teletype equipment which was at the depot is now back and in operation.
- b. The base now has a direct circuit to Guam.
- c. Crypto gear now believed to be adequate as all programmed equipment is now on hand.
- d. "Hot lines" now available.
- e. Poles for additional antennas now installed.
- f. "Sea Weed" now has generators for emergency power for SAC Control Room.

1. FIFTH AIR FORCE SUPPLY VISIT TO AIRCRAFT CONTROL & WARNING ACTIVITIES: (Unclass) Capt Paul W. Seaton, Headquarters 5th Air Force, completed a staff visit to the AC&W activities of the command on 7-10 April 1958. He visited the 623rd AC&W Squadron and three (3) of its detachments during the period 7-10 April 1958 for the purpose of determining problem areas encountered by the squadron in supply functions. The most prevalent problem was the lack of skilled unit supply personnel. Capt Seaton recommended that this headquarters review all available supply personnel resources and effect reassignments to the AC&W Squadron, where possible, to provide at least one (1) fully qualified supply airman to each AC&W activity. In the event personnel are not available for reassignment, he further recommended that Headquarters 5th Air Force be apprised of the situation and asked to provide the necessary personnel. This directorate has initiated a review of personnel assigned. Capt Seaton was accompanied during his visit by M/Sgt J. F. Bowman and M/Sgt J. D. Durn, MC-S, this headquarters. (M/Sgt Bowman/48102)

(SECRET) This command has experienced considerable difficulty in maintaining adequate stockage of QK338 Magnetron tubes. Shipments of these tubes are not being made often enough or in sufficient quantities to satisfy our requirements. This headquarters has taken action to effect immediate airlift of twenty-eight (28) each tubes from Dayton AFD. Thirty (30) each have been shipped by surface transportation but have not been received to date. Action has been taken to determine ETA Okinawa for these tubes. In addition, 5th Air Force has requested PACAF to initiate necessary action to effect shipment of at least sixty (60) each subject tubes via priority airlift, and to follow up with an immediate surface shipment, with priority assigned, that will deliver them to this area in a reasonable amount of time. Fifth Air Force has advised PACAF that, unless action is initiated to insure larger and faster shipments of subject tubes, we will continue to experience difficulty. (S/Sgt Stover/48102)

2. POSSIBLE CAUSE OF MAGNETRON FAILURES - SITE 56, YUZA DAKE.

(SECRET) Representatives of this office visited Site 56 on 14 April 1958 to determine the cause of the recent Magnetron, QK-338-A, failures at that site. It was found that the clamp and washers that hold the magnetron and the attached waverguide were slightly bent. This caused a pressure on the magnetron windown causing it to crack. This trouble has apparently been alleviated by a new clamp and washers. The present magnetron has over 75 hours and is still performing satisfactorily. (T/Sgt Crenshaw/40130)

2. RADIO-TV MEETING ON STATION LOGISTIC SUPPORT: (Uncl) Capt Reddrick represented this headquarters at a meeting with Army-Air Force Radio-TV personnel and supply personnel of the 6313th Air Base Wing, to finalize logistic support planning of the new consolidated activity under Air Force operational control. Meeting was called by 1st Colonel Clark, Director of Materiel, 6313th Air Base Wing. Logistic support responsibilities have been placed upon the Headquarters Squadron Section, 6313th Air Base Wing. Prior to delegating responsibilities to the 6313th Air Base Wing, this directorate completed all coordination deemed necessary and briefed all personnel involved on action taken.

However, one point remains to be determined; i. e., present status of selected items originally procured for this activity through Department of Defense funds expenditure, which are now carried on Army property records as distinguished from Armed Forces Radio-TV property records. Inquiry into this has been initiated by Radio-TV station personnel directly through Armed Forces Radio and Television Service channels.

Tentative meeting is planned to effect transfer of property when requested information has been received. The 6313th Air Base Wing was furnished a copy of Fifth Air Force letter to be used as authority for establishing logistic support. (Capt Reddrick/42108)

1. RADAR OUT OF SERVICE STATUS REPORT FOR APRIL (Unclass): The Radar out of Commission for Parts-Radar/Radio Not Functioning Properly status report for the month of April is as follows:

Radar out of Commission for Parts (ROCP) - 0.087%
Radar/Radio Not Functioning Properly (RNFP) - 1.54%

The slight increase in ROCP from 0.00% to 0.087% was primarily due to technical difficulties at Site P-56. These difficulties were caused by improper fitting between the magnetron, waveguide, and pulse transformer. This improper fitting caused a binding of the magnetron, thereby causing breakage of magnetron radio frequency window. This difficulty was finally corrected by replacing the waveguide section, marmon clamp, and washers which hold the waveguide. The RNFP rate continues to improve. (S/Sgt Stover/48102)

2. CANCELLATION OF INCOMING VEHICLE SHIPMENTS (Unclass): Due to changes in vehicle requirements for bases of this command, it was found that many vehicles being shipped to Okinawa through redistribution against the 31 December 1957 Vehicle Requirements Report are not now required. To prevent the generation of additional excesses, these incoming shipments have been reviewed against current requirements. Wherever possible, vehicles due in against a dead requirement were diverted to fill a need existing in another organization or base. Those for which a requirement no longer existed at either base were cancelled.

RECEIPT OF MAGNETRON TUBES AND RETURN TO CONTINUOUS OPERATION OF OFF-ISLAND RADAR SITES (Conf): AFB 5272 (Naha) received 30 each QK-338A magnetron tubes and has effected shipment of full complement of these tubes to each radar site. Off-island sites have been directed to return FPS-6 radars to continuous operational duty. FPS-6 radars at on-island sites remained on continuous operation during this period of magnetron shortage. Shortages of these tubes should be practically eliminated with the arrival at AFB 5272 (Naha) of another 28 tubes shipped 11 April. The request for assistance was forwarded through channels to AMC, and AMC has gone out to procure additional MA-2's. Any further AMC action to alleviate this situation will be reported as future daily journal items.

a. Resume: The problem is basically due to a shortage of these units. The 18th FBW is short ten. This overworks the sixteen on hand. 1. USAF FY-59 POLICY ON TRAVEL OF ACCOMPANIED PERSONNEL FROM OKINAWA TO ZI (Unclass):

a. The following is extracted from CINCPACAF message PFMTT-T 36674, dated 122217Z:

"USAF policy effective 1 July 1958 requires that all Air Force sponsored personnel travel to and from the CONUS by air. Only these individuals and/or family units who refuse to fly will be provided water transportation. In this connection be advised that principals may be required to fly if reporting dates and other exigencies of the service so dictate."

b. Headquarters PACAF has rebutted the above USAF policy as follows:

"Your policy that only those individuals and/or family units who refuse to fly will be moved by ocean transportation to and from the US announced in your message is concurred in. However, we do take exception to your arbitrary determination of our July and August inbound to CONUS water requirements for the following reasons: (A) The number of dependents that refuse air travel from the PACAF area to the CONUS is conservatively estimated to exceed the 15 per cent indicated in Part II of referenced message. We are now determining the exact percentage but estimate it to be in excess of 50 per cent. (B) Reporting date to new assignments will force sponsors to return and leave their dependents in the theater. (C) Occupation of government quarters by dependents subsequent to sponsor's departure. (D) This in turn will cause a reduction in the number of dependents that can travel concurrently to the theater. (E) An agreement between the Japanese and U. S. Governments prevents dependents from remaining in Japan subsequent to a sponsor's permanent change of station. (F) Dependents that have a defensible reason for refusing to fly may be required to accept airlift in order to travel with their sponsor, thus creating a subject for complaints to Congressmen and the Inspector General. (F) Last but not least are adverse effect on morale and the reenlistment rate."

1. PARTS SUPPORT FOR CUMMINS LOOKW GENERATORS (Unclass): A staff visit was made to Naha Air Base on the 4th of June for the purpose of determining if Base Supply was forwarding requisitions for Cummins Generator parts to Rycom Depot. It was found that in several instances such requisitions were forwarded to SMAMA. The proper people were notified and corrective action taken to assure that parts are obtained in the future from the local Army Depot. While in the course of conducting research necessary to accomplish the purpose of the visit, it was learned that Naha Air Base was in the process of submitting requisitions for spare parts to perform a 12,000 hour check and rebuild on 27 Cummins Generators. PACAF Regulation 65-18 places the responsibility for such action on SAMAP. It was requested that all the requisitions be held without further action. A radphone call was made to SAMAP to determine what action was being taken by them to procure these parts. It was learned that SAMAP had taken action to procure parts for the first three generators due for the 12,000 hour check and has intended to take requisitioning action for all of the 12,000 hour checks. Action is now being initiated to have all the requisitioning action by Naha Air Base for parts for the 12,000 hour check cancelled. (T/Sgt Caffrey/44203)

2. RECEIPT OF B-52 PREFAB NOSE DOCKS (Conf): The Project Razor Sharp Officer has notified this office that approximately one million pounds of materials for nine B-52 prefabricated nose docks has arrived at Kadena. A check with the Installations Section, this headquarters, reveals that the project for erecting nine (9) prefab nose docks has been cancelled by higher headquarters. The receipt of this material is causing a very large storage and security problem and all commands concerned (SAC, AMC, 5AF, PACAF, USAF) are being requested to provide clarification. 1. GENERAL SERVICES ADMINISTRATION ANNUAL ASSISTANCE VISIT (Unclass):

Lt Col Ernest A. LaSalle, Headquarters SMAMA, McClellan Air Force Base, California, and Mr. Benjamin F. Blount, General Services Administration, San Francisco, California, arrived Okinawa on 5 June 1958 on an annual assistance visit and to brief all personnel concerned relative to requisitioning procedures, etc., by overseas activities from General Services Administration via transceiver. Briefing is scheduled for 0900 hours 6 June 1958 in the Keystone Theater, Kadena Air Base. Both Kadena and Naha units will be well represented at this briefing. (M/Sgt Pearlstein/44203)

2. MEETING ON PARTS SUPPORT FOR CUMMINS GENERATORS (Unclass):

A conference was held at 313th Air Division Headquarters on 5 June 1958, at the request of the Division Materiel Officer. Those in attendance included representatives from the Division Materiel Office, Naha Base Supply, Naha Installations Squadron, 313th Installations, and Rycom Depot. The purpose of the meeting was to determine action to be taken on a quantity of requisitions submitted to Rycom Depot for Cummins Generator Parts by Naha Base Supply. It was discovered during a routine supply assistance visit that Naha Base Supply was requisitioning 27 sets of parts for use in the 12,000-hour check and rebuild of Cummins 100KW Generators. In accordance with PACAF Regulation 65-18, this action is the responsibility of SAMAP, who is to perform the rebuild. SAMAP was contacted and it was learned that the parts for the check and rebuild were being ordered by that depot. It was therefore decided to cancel all requisitions to Rycom for these parts. This resulted in a saving of approximately \$40,000 to Naha Base funds. (T/Sgt Caffrey/48102)

1. TRANSFER OF DIVISION TRANSPORTATION FUNCTIONS (Unclass):

a. Effective this date (9 June 1958), all Transportation functions for which Transportation Division, Directorate of Materiel, had been responsible have been transferred to the bases.

(1) Commander, 6313th Transportation Squadron, 6313th Air Base Wing, will act as 313th Air Division Staff Transportation Officer, additional duty. He will coordinate all transportation matters, other than routine, through 313MC. Non-routine correspondence on transportation matters, coordinated through 313MC, will be prepared for the signature of 313th Air Division Director of Materiel or 313th Air Division, Chief, Administrative Services, as applicable.

(2) All staff transportation functions and responsibilities, along with personnel spaces now authorized and personnel assigned, are transferred to 6313th Transportation Squadron, except that of U. S. Air Force Port Representative.

(3) Personnel space and assigned NCO, along with responsibilities and functions of U. S. Air Force Port Representative, have been transferred to 6431st Transportation Squadron, 6431st Air Base Group, APO 235, Naha AB.

b. No problems are foreseen arising from this transfer of operational type functions from division to base level. Personnel presently assigned are considered capable and trained so as to require a minimum of supervision and guidance.

c. In this re-alignment, a saving of two officer spaces was realized:

(1) One each major (AFSC 6016).

(2) One each captain (AFSC 6024).

(Lt Col Morgan/44204)

2. SHIPMENT OF ITEMS ON AIR FORCE SHIPPING DIRECTIVES (Unclass):

The 67th Tactical Reconnaissance Wing has advised the 6313th Air Base Wing, with information to 313th Air Division, that items representing 95 per cent of the Air Force Shipping Directive and 76 per cent of the Ground Support Equipment, authorized the 15th Tactical Reconnaissance Squadron for support of the RF-101 aircraft, was shipped from the Zone of Interior on 4 June 1958. 1. SUPPLY ASSISTANCE VISIT ON WEAPONS CARRIER ENGINES (Unclass):

A request was received on 6 June 1958 to assist the maintenance and supply activities at Kadena AB in resolving difficulties encountered in obtaining 15 each rebuilt engines from Army Ordnance Depot for use in 3/4-ton weapons carriers. A supply assistance visit was immediately made. The Base Supply Property Accounting Officer was contacted, as well as representatives of the motor vehicle maintenance shop. It was learned through checking base supply records that 15 engines had been turned in for rebuild and replacements were not received, resulting in excessive VOOBs for 3/4-ton trucks. Army Ordnance representatives were contacted and it was learned that the engines had been turned in to them; however, the requisition which was to accompany the turn-in was not received. Arrangements were made with the Property Accounting Officer to prepare a new requisition to be hand carried to Army on 9 June, at which time the engines can be picked up. Army representative agreed to this. (T/Sgt Caffrey/44203)

2. STATUS OF VEHICULAR EXCESSES AT KADENA AB (Unclass): A visit was made to Area 1 excess yard at Kadena AB on 5 June 1958. The purpose of this visit was to ascertain if vehicles in excess storage were being properly reported, if non-critical, uneconomically repairable vehicles were being processed to disposal using authority contained in Volume XIII of AFM 67-1, and to determine if incoming vehicles were being properly processed to the requiring organization. An inventory was conducted and 61 vehicles were found in the excess storage area. Of these 61--9 each were destined for units on Kadena AB; 2 each were earmarked for shipment to Naha AB; 17 each were in a condition to permit local disposal action and should have been so processed upon receipt by Base Supply; 5 each were to be reported to higher headquarters for disposition instructions; 9 each were properly reported and were awaiting disposition from higher headquarters; the status of 17 each was not determined (Further research is being conducted to determine the disposition of these vehicles.); and 2 each were earmarked for shipment to depot for overhaul. Correspondence has been prepared by this headquarters directing that the vehicles be processed to the proper organization or base. (T/Sgt Caffrey/44203)

1. MATERIEL VISIT TO CHIA-YI (Secret):

a. Representatives of this directorate visited Chia-Yi on 9 June to coordinate on logistic support matters. Quarters and subsistence are excellent. Morale is very high. Supply support is generally satisfactory.

b. However, refueling equipment there is obsolete. The F-2, 2,000-gallon refueling tank trailers are old. They have a very slow dispensing rate, although serviceable. For F-100 aircraft, 2,000 gallons will not always service two aircraft. This is pre-positioned equipment, a responsibility of ATF 13 (Prov).

c. F-6 or MJ1 units are needed. These larger, faster pumping units would service three to six F-100 aircraft without return to fill stands. They will rapidly pump fuel into aircraft (600 gallons per minute). This would afford minimum turn-around and vulnerability time.

d. Appropriate recommendation has been forwarded to higher headquarters to amend Consolidated Materiel Distribution Objective (CMDO) documents to pre-position MJ1 fuel servicing tankers at Chia-Yi.

e. Liquid oxygen supply has been a bothersome problem. Operations Plan 124-58 fixes the responsibility for liquid oxygen supply on ATF 13 (Prov), working with Chinese National Air Force to support our deployed units. However, ATF 13 (Prov) and CNAF do not have capability at Chia-Yi to support 44th FBS now deployed there. As a result, a 50-gallon liquid oxygen cart has to be flown from Kadena AB (18th FBW) every other day. This is being done, but it is not entirely satisfactory.

f. Therefore, appropriate action has been recommended to Fifth Air Force and ATF 13 (Prov) to correct this deficiency. (Lt Col Morgan/44204)

1. (UNCLASSIFIED) The 313th Air Division Welfare Fund is in the process of preparing the Budget for Fiscal Year 1959. All activities within the Division which have requirements in connection therewith shall submit their statements to reach the Office of Personnel Services, 313PG-S, not later than the 25th day of January 1958.

Headquarters US Army and Air Force Exchange Service has authorized the turn over of the Kadena Air Base Bowling Alley Snack Bar, from the Ryukyus Central Exchange, to the Kadena Central Base Fund. Activity will be transferred on 22 January 1958. This will result in additional revenue for the Central Base Fund of approximately \$2,300 per month.

Information received from Headquarters PACAF, that USO Unit 1282, "Hollywood Sampler" composed of three (3) men and four (4) women will arrive Okinawa 16 March 1958 to tour the "Hardship Circuit" isolated AC&W Sites. Unit will depart Okinawa for Taiwan 23 March 1958.

The Okinawan Inter-Service Sports Council will hold a meeting on Thursday, 23 January 1958 at 1400 hours in room 241 at Headquarters USARYIS.
(Major Reilly - 42201)

2. (UNCLASSIFIED) The Fifth Air Force Command Airmen OJT Evaluation was received for the month of October 1957. Rating of the Headquarters and subordinate units were as follows:

<u>UNIT</u>	<u>RATING</u>	<u>TOTAL POINTS</u>
313th Air Division	2 (Out of 4 Rated)	174 (Out of 200)
6313th Air Base Wing	5 (Out of 10 Rated)	173 (Out of 200)
51st Fighter Interceptor Wing	2 (Out of 10 Rated)	184 (Out of 200)
6431st Air Base Group	3 (Out of 7 Rated)	166 (Out of 200)

The breakdown of the 200 points possible in the above ratings is as follows:

Quality	100 Points
Eligible in Training	75 Points
OJT Completions.	25 Points

All units suffered a decrease in the eligible in-training rate during October due to OJT in the "7" skill level beyond 100% of authorizations being no longer credited by Headquarters, Fifth Air Force.

The Fifth Air Force Classification and Audit Team who were conducting the annual audit of records, had to curtail their audit due to lack of TDY funds. They returned to Headquarters, Fifth Air Force 20 January 1958. They completed the audit of records and training evaluation

Director of Personnel, 20 January 1958 - Continued

for the 51st Fighter Interceptor Wing, 6431st Air Base Group, and Detachment #1, Headquarters, 313th Air Division. They started the audit in the 6313th Air Base Wing on 16 January, but were unable to finish. Original plans were to audit all Division Units with the exception of the Fifth Communications Group.

1. (UNCLASSIFIED) Headquarters, PACAF Central Welfare Fund has approved a \$75,000 grant to partially fund the cost to construct an 18-hole Golf Course at Kadena Air Base. This amount added to the \$50,000 generated through our carnivals, makes \$125,000 in Non-appropriated Funds available for construction of the Golf Course. Because the total project exceeds \$50,000, plans and specifications for the Golf Course have been forwarded by PACAF to Headquarters USAF for approval.

Major Reilly attended a meeting at Special Services, Headquarters, USARYIS on 20 January 1958, regarding live entertainment program for balance of Fiscal Year 58 and Fiscal Year 59. Headquarters USARYIS will serve as area coordinator for live entertainment program. The USO "Hardship Circuit" Show (Small units of 5 to 7 people) will be scheduled for sites beginning 5 February 1958 on a basis of one (1) each month. Regular USO Shows (Large units of 10 to 30 people) and other live entertainment will be scheduled for Kadena and Naha Air Base and other military installations on Okinawa beginning 4 March 1958 on a basis of one each month. There will be no fund requirements for USO shows. However, there will be some expense involved in support of Airmen and Soldiers shows procured in the Far East, for commercial shows procured in Japan and for college groups from the Zone of Interior. Cost for support of the program for the balance of FY 58 is estimated at \$1500.00. Estimate for FY 59 is set at \$6000.00. Army, Air Force and Marines on Okinawa will provide funds for the program on a one-third (1/3) share basis.

(CONFIDENTIAL) Information received from CINCPAC that during the period 13 - 18 March, there will be no flights or visits to Taipei Area without specific CINCPAC approval. This does not effect those trips incident to transporting mission conferees.

(CONFIDENTIAL) Information received from CINCPAC that travel of dependents and unofficial Navy travel to Indonesia is prohibited until further notice.

Captain Joseph Remenicky, Jr., AO833245 to the 834th Air Division Headquarters, England Air Force Base, Louisiana, against TAC April requisition, Line 358, AFSC 4344.

1st Lt James D Pewitt, 28561A to the 63d Air Rescue Squadron, Norton Air Force Base, California, against AMC April requisition, line 44, AFSC 1044C, reporting March 1958. (Lt Colonel Moody - 48101)

3. (UNCLASSIFIED) Headquarters, Pacific Air Forces has tentatively scheduled a Management Instructors' Institute for March or April 1958. The purpose of this institute is to train replacements for military management training instructors. At the present time, Naha Air Base has two (2) management instructors who completed this course during 1957 and Kadena Air Base has one (1). Both instructors at Naha will rotate to the Zone of Interior in June 1958, so they have been instructed to make plans now to insure that additional personnel are qualified as management instructors, prior to departure of present instructors. Present plans call for at least one (1) management instructor from Kadena and one (1) from Naha to attend the Management Institute.

2. (UNCLASSIFIED) The report of Welfare Activities of Americans on Behalf of the People of the Ryukyus for the period ending 31 December 1957 was transmitted today, having a total amount of \$15,702.81 from Kadena and Naha Air Bases. Coupled with the total amount of \$6,847.32 for the first six (6) months of 1957 gives a grand total of \$22,550.13 for the Calendar Year 1957.

Major Reilly conducted a meeting with the Base Housing Officers on 23 January 1958. Present for the meeting were Lt Colonel Douglas, Kadena Air Base Housing Officer, Major LeRoy, Naha Air Base Housing Officer, Major Reilly, Chief, Personnel Services, Headquarters 313th Air Division and T/Sgt Swofford, NCOIC Kadena Base Housing. Purpose of the meeting was recapitulation of the entire housing picture to determine when the next travel list could be published. In view of the turnover of the MCA housing to the Army and the large number of accompanied personnel being assigned to Okinawa from Japan, it was decided that no travel list would be possible for April 1958. There is a possibility of resuming travel from the CONUS to arrive in late May 1958. This will be decided at another meeting to be held in approximately two (2) weeks. (Major Reilly - 42201)

A letter, Subject: Air Force Testing Program, dated 31 December 1957, has been received from Headquarters, Pacific Air Forces. They pointed out that a number of Test Control Officers in the command were not assuming their responsibility for the proper administration and control of the Air Force Personnel Testing Program as prescribed by AFM 35-8, 6 August 1956 and AFR 5-7, 1 July 1957. Specific examples of inadequate administration and control were cited. The letter requested this command's assistance in taking positive action to insure a high standard program, which would eliminate the present discrepancies. Positive action has been taken by the test control centers at Kadena and Naha Air Bases to insure the continued highest possible standards in the testing program.
(Captain Raleigh - 42114)

1. (UNCLASSIFIED) Contract has been let with the Far East Construction Service Company Incorporated for the enclosure of the area between the Vogue Shop and the back of Toyland at the Kadena Base Exchange. The amount of this contract is \$4,992.00; an additional \$1,500.00 will be spent on new fixtures and a ten (10) ton air conditioner will be installed. This area when completed will give an additional 1,200 square feet of retail area and will permit passage through the entire length of the exchange. Exchange funds are being used for this project.
(Lt Colonel Downer - 70198)

2. (UNCLASSIFIED) Major Reilly paid a Staff Visit to the Personnel Services functions at Naha Air Base on 27 January 1958. Activities visited were the new library, hobby shops and gymnasium.

Information received from Commander, Fifth Air Force that Mr. Harry F. Cook, Chief, USAF Library Services, Miss Mary J. Carter, PACAF Command Librarian and Miss Ruth Sieben-Morgan, Staff Librarian, Headquarters Fifth Air Force will visit libraries of this command during the period 21 - 27 February 1958.

Manpower Section was advised verbally on 24 January 1958 of proposed requirement for teacher and administrative spaces for Dependent Schools for Fiscal Year 1959. A total of 104 spaces were requested. Eighty-four (84) of these spaces will be required for teachers. Twenty (20) of these spaces will be required for administrative overhead personnel. The administrative overhead personnel consist of a pro-rata share of civilian personnel, excluding teachers, to operate all schools on Okinawa based on estimated enrollment as of 30 September 1958. The above figures were obtained from the Command Schools Officer.

3. (UNCLASSIFIED) A special two (2) hour briefing on the Field Training Program by Air Training Command Representatives will be held at 0915 hours, 30 January 1958 in the Keystone Theater. This briefing will be for Commanders and Key Staff Officers of all assigned and attached organizations at Kadena and Naha Air Bases.

As of 25 January 1958, there were seventy-seven (77) officers and 424 airmen waiting travel of dependents to Okinawa. This is an increase of eight (8) officers and eighteen (18) airmen over the December waiting list. Since the loss of the MCA houses and the resultant increase in the waiting period, we have had two (2) officers and seventeen (17) airmen cancel their request for dependents travel.

Major Neiderman, Command Schools Officer and Captain Frick, 313th Air Division Schools Officer visited Kadena Air Base 31 January 1958 for the purpose of briefing the Base Commander on Dependent Schools problems and facility requirements for School Year 1958 - 1959.

The Army recently advised us of their tentative plans to move the Junior High School to the Naha Fort area at the beginning of school in September 1958. These tentative plans are to renovate buildings 408 and 409 adjacent to the High School for this purpose. If these plans materialize, the present Junior High School building will be utilized by the Machinato Elementary School next year in addition to the one they are presently occupying.

Director of Personnel, 31 January 1958 (Continued)

The enrollment as of 24 January 1958 was as follows: Kadena - 1035; Naha - 696. There are thirty-eight (38) teachers assigned at Kadena and twenty-eight (28) at Naha. The teacher pupil ratio is 27.2 at Kadena and 25.7 at Naha.

1. (UNCLASSIFIED) Information has been received from Fifth Air Force that a change to AFM 35-1, to be effective 31 August 1958, will delete the normal color vision requirement for certain AFSC's in the 42, 43, 47 and 53 career fields. This information has been forwarded to all units of this command.

The Fifth Air Force Command Airmen Training Evaluation was received for the month of November 1957. This shows the comparative QJT quality ratings of all Divisions, Wings and Groups in Fifth Air Force. The 313th Air Division is rated in second place of four (4) Divisions rated. The 51st Fighter Interceptor Wing is in third place, and the 6313th Air Base Wing is in a tie for fifth place of ten (10) Wings being rated. The 6431st Air Base Group is in a tie for second place of seven (7) groups being rated. The major reason all our units are not in first place is because we are not receiving statistical credit for some two hundred of our personnel as being in official QJT. These personnel are in fact in official QJT, but until the QJT and Classification Index Card Files are balanced, we will continue to stay in second and third place. The 6313th Air Base Wing and the 6431st Air Base Group have been instructed to take immediate action to correct these reporting discrepancies.
(Captain Raleigh - 42114)

2. (UNCLASSIFIED) During January 1958, this headquarters received sixty-one (61) applications for concurrent travel of dependents to Okinawa. Forty-one (41) applications were approved (thirty-nine (39) from within PACAF and two (2) Lt Colonels from the Zone of Interior) and twenty (20) applications were disapproved.

The February Airmen of the Month Flight departed Kadena Air Base 1 February 1958 for Hong Kong. However, due to weather conditions, the aircraft was unable to land in Hong Kong and returned to Kadena Air Base. The flight is re-scheduled to depart Kadena for Hong Kong 5 February 1958, returning 10 February 1958.

Information received from Commander, Fifth Air Force that the PACAF Education Services and Library Conference which was scheduled for 10 - 12 February 1958 in Japan has been cancelled. The Education Directors and Librarians from Kadena and Naha were scheduled to attend the conference. Personnel have been notified of the cancellation.

The Nonappropriated Welfare Fund Expenditure Programs for Welfare Activities for Fiscal Year 59 - 60 has been submitted to Headquarters Fifth Air Force as follows:

Fund	FY 58 Allocations	FY 59 Estimates	Increases
313th AD CNW	\$ 33,578.80	\$ 47,759.00	\$ 14,180.20
Kadena Central Base	175,865.00	486,000.00	311,135.00
Naha Central Base	135,293.80	160,734.00	25,440.20

Director of Personnel, 3 February 1958 - Continued

The increases in the Division Consolidated Nonappropriated Welfare Fund are:

(1) An appropriation of \$11,800.00 for Radio and Television Station which was not budgeted in FY 58.

(2) Increases of Welfare Programs which necessitated an increase requirement in the amount of \$2,000.00.

The increases in Kadena Central Base Fund are:

(1) Inclusion of \$60,000.00 in Unit Fund Budget which was not budgeted in FY 58.

(2) Increase of \$130,000.00 in Personnel Services requirements above FY 58 due to the fact that most of the expenses for salaries and wages have to be borne out of nonappropriated welfare fund budget, rather than the appropriated fund.

(3) A budget request for \$110,000.00 for air-conditioning of Kadena Libraries.

Paragraph (1) above applies to the Naha Central Base Fund with regards to the increase of \$25,000.00.
(Major Reilly - 42201)

3. (UNCLASSIFIED) The following officers received Zone of Interior assignments:

Lt Colonel Walter F Williams, 7815A, to Headquarters Civil Air Patrol, Bolling Air Force Base, Washington 25, D. D., with permanent duty station, North Central Region Liaison Officer, Building T-384, Minneapolis-St Paul International Airport, Minneapolis, Minnesota, for duty as Regional Liaison Officer, against CAF April command requirements, AFSC 1416, reporting April 1958.

Captain Casimer J Funske, AC928717, to the 36th Air Division, Davis Monthan AFB, Arizona, against SAC command requirement, AFSC 1525B, reporting March 1958.

Captain Charles D Sammons, AC715610, to 327th Air Base Squadron, Truax Field, Wisconsin, against ADC April requisition, line 40, AFSC 1054B, reporting March 1958.

(UNCLASSIFIED) On 7 February 1958, a meeting will be held in this headquarters for all officers and airmen of the Division who work on officers' records. The primary purpose of this meeting will be to explain the new officers' distribution cycle and system as presented at a conference held at Headquarters, Fifth Air Force on 31 January 1958. It is planned to explain the essential elements of this system to the Division Staff and Commanders at the monthly unit Commanders' Meeting on 3 March 1958. One important item for all officers who have MOTD's in September, October or November 1958 and who plan to request an extension to their foreign service tour is that the request must be approved and the new MOTD entered on the Morning Report prior to 15 February 1958, or it will be too late.

Major Reilly attended a meeting of the Okinawan Armed Services Athletic Council at Headquarters 3rd Marine Regiment on 17 February 1958. As a result of the meeting:

a. Initial plans for the 1958 Inter-Service Baseball League were established. The league will consist of nine (9) teams (1 Army, 2 Air Force, 1 Navy, 4 Marine and 1 Ryukyuan all-star team). A double-round robin league will be played between 20 May and 15 July 1958. Time limit for league play is due to requirement for the Marines to enter an all-star team into Marine world-wide competition. The Navy will be host service.

b. It was determined that an Interservice Softball Tournament would be held similar to last year, to commence after 15 July 1958. It is anticipated that there will be seven (7) or eight (8) teams in the tournament.

Miss Mary Carter, PACAF Command Librarian, departed Okinawa on 16 February 1958 after a staff visit of the libraries within this command. On 17 February 1958, Miss Ruth Sieben-Morgan, Fifth Air Force Librarian, departed Okinawa after a similar visit. Before departing, Miss Sieben-Morgan informed this office that the libraries within this command were among the best in the Far East. She gave particular emphasis on the libraries at the sites assigned and attached to this headquarters.

1. (UNCLASSIFIED) The following officers received Zone of Interior assignments:

Major Gregory D. Picone, AO912567, to Headquarters USAF, Pentagon, Washington 25, D. C. duty with the Directorate of Plans, against Headquarters Command May requisition, line 7772, AFSC 7016.

Captain John M. Cox, AO935064, to the 834th Air Division, England Air Force Base, Louisiana, against TAC May requisition, line 446, AFSC 6424.
(CWO Taylor - 48101)

2. (UNCLASSIFIED) A letter was forwarded to Fifth Air Force informing them that all but six (6) airmen in the entire command who were eligible and could be placed in training were in training during December 1957. This data was not reflected on the December OJT Evaluation due to the fact that the Classification and Index Card File and the OJT Card File were not audited against each other. The letter further pointed out that this condition has now been corrected for the 51st Fighter Interceptor Wing and the 6431st Air Base Group. It is also in the process of being corrected for the 6313th Air Base Wing. The correct In-Training rate will be shown in the January OJT Evaluation for the 51st Fighter Interceptor Wing and the 6431st Air Base Group. The February Evaluation should reflect the correct In-Training rate for all units in the command.

1. (UNCLASSIFIED) The following CINCPACAF message, PFPMA-T 24618, dated 12 February 1958 is quoted:

"UNCLAS/From PFPMA-T 24618. The requirement for Master Sergeants holding PAFSC 29170 to be administered a second airman proficiency test in AFSC 29270, for appointment as a regular Air Force Warrant Officer is waived. This test waiver applies only to the current (FY 1959) application cycle. Subsequent application cycles will require those airmen holding AFSC 29170 to take a second airman proficiency test. All Master Sergeants who hold AFSC 29170 and plan on future application for regular Warrant Officer appointment should be advised to secure appropriate clearance for taking 29270 AFP. No other waivers will be approved. Authority: Headquarters USAF message AFPTR-P-3A ALMAJCOM 415/48." (Major Watters - 44138)

2. (UNCLASSIFIED) During February 1958 this headquarters received twenty-one (21) applications for concurrent travel of dependents to Okinawa. Seven (7) applications were approved (all from within PACAF) and fourteen (14) applications were disapproved.

2. (UNCLASSIFIED) In the housing meeting on 4 March 1958, with representatives of Naha and Kadena Air Bases, it was determined that it will be possible to issue a 5B travel list for dependents to travel and be housed in government quarters after mid-May 1958. This is possible due to the return of approximately seventy (70) Air Force-owned houses from rehab, together with vacancies occurring through normal MOT's. Of the seventy (70) families to receive these quarters, fifty-six (56) will be traveled from the Zone of Interior and fourteen (14) from Japan. Fifty-five (55) are airmen who departed the Zone of Interior prior to 16 July 1957, and fifteen (15) are officers with Zone of Interior departure dates prior to 16 September 1957. The dependents in the Zone of Interior will be scheduled for travel to arrive on Okinawa on or about 16 May 1958. (Major Reilly - 42201)

4. DEPENDENT TRAVEL (UNCLASSIFIED) The June 6A Dependent Government Quarters/Travel List, in the process of publication, will authorize government housing for one hundred and fourteen (114) families. Of this number, eighty-five (85) will be transported from the ZI and twenty-nine (29) will move from private rentals to government housing. Breakdown of this list is as follows:

	<u>KADENA</u>	<u>NAHA</u>	<u>TOTAL</u>
Officers	5	6	11
Airmen	$\frac{70}{75}$	$\frac{33}{39}$	$\frac{103}{114}$

In addition, thirteen (13) families are being traveled to private rentals.

This travel is possible due to the large number of June MOT's and expected receipt of houses from the rehab program.
(Major Reilly - 42201)

1. APPRENTICE - VOCATIONAL - OJT PROGRAM (UNCLASSIFIED) Four (4) of the Japanese training instructors arrived 2 April 1958. The following information is submitted as a brief on the utilization of the JNs:

Purpose: To supplement current and future on-the-job training programs of this headquarters, ultimately to raise the overall skill level of Ryukyuan employees through the selection of employees for training and giving them the opportunity to acquire the technical and vocational skills necessary for normal progression to fully qualified journeymen and supervisory positions.

Prohibitions and Restrictions: (1) JNs will be utilized only as instructors. (2) JNs will not displace Ryukyuan employees nor deter employment of Ryukyuan. (3) USCAR will be kept informed of developments and progress. This will be accomplished through the medium of the Joint Industrial Vocational Training Council. The JN instructors are limited to one (1) year in the Ryukyus with a possibility of having contracts renewed upon approval by USCAR.

Phases of the AVO Program are (1) determination, analysis and documentation (2) development of units of instruction (3) Instruction (4) Evaluation.

Twelve (12) Japanese instructors are authorized. These will be assigned as one (1) chief, two (2) principal instructors and nine (9) journeymen instructors. These employees will have approximately the same rights and privileges as will present Filipino personnel. (Mr. Walker - 49235)

2. CONFERENCE ON OJT REPORTING PROCEDURES: (UNCLASSIFIED) A meeting was held with Lt Colonel Laybourn, Captain Wells, Mr. Karpen, and representatives from Kadena and Naha statistical services on 7 April 1958. The purpose of this meeting was to discuss the serious effect that erroneous OJT reporting procedures were having on the command OJT program and what could be done to correct the same. It was decided that the best course of action to take was to request the following assistance from Headquarters, Fifth Air Force:

a. Request the complete Fifth Air Force Classification and Index card file and On-the-Job Training card file for all division units be forwarded to the appropriate BEAMC units.

b. Request a representative from Fifth Air Force who has sufficient authority to commit Fifth Air Force to systems or procedural changes and/or courses of action, either at Fifth Air Force or this level, accompany the above card files. This representative should be able to assist in identifying problem areas and make necessary changes to balance 313th Air Division Base OJT card files with Fifth Air Force card files.

The above action is deemed necessary in order to effect a realistic reporting of the command OJT Program.

Necessary items are to be added to the Air Force Forms 623 (OJT Record). This headquarters added some additional items which will amount to five (5) additional hours of instruction. This headquarters will furnish assistance as required in the instruction program. (Captain Raleigh - 42114)

5. OUTSTANDING OJT PROGRAM: (UNCLASSIFIED) The 51st Fighter Interceptor Wing received an engraved plaque from Headquarters, Fifth Air Force in recognition of the outstanding OJT Program in Fifth Air Force during 1957. This award will be shared by the 6431st Air Base Group since they were rated under the Wing during 1957. The presentation of the plaque will be made during the "Dining In" of the 51st Fighter Interceptor Wing. (Captain Raleigh - 42114)

6. SMALL ARMS TRAINING PROGRAM: (UNCLASSIFIED) Headquarters USAF has forwarded a letter which outlines a revised small arms training program for all personnel. The objective of the revised program will be to qualify all active duty and ready reserve Air Force personnel (Chaplains, WAF, medical and personnel classified as non-combatant excepted) at the level of proficiency, with an assigned or training firearm equivalent to "Marksman," and the listed special categories of personnel which includes Air Police, Air Crewmen, base security personnel, and investigators as "Sharpshooters." Of necessity, proficiency objectives will be reached gradually. Air Force resources cannot immediately provide all of the equipment, personnel, ranges and facilities required for the program.

1. OKINAWA INTER-SERVICE SPORTS CALENDAR 1958 (Unclass): Chief, Personnel Services attended a meeting of the Okinawa Armed Services Athletic Council at Headquarters, 3rd Marine Division, on 18 April 1958. Purpose of the meeting was to finalize plans for conducting Inter-Service sports competition on Okinawa through July 1958. As a result of the meeting, the following sports calendar was determined:

<u>SPORT</u>	<u>HOST SERVICE</u>	<u>DATES OF COMPETITION</u>
Baseball	Navy	20 May - 15 July
Track & Field	Air Force	10 May
Tennis	Marines	21 - 22 June 28 - 29 June
Golf	Army	30 - June 1 - 2 - 3 July
Diving & Swimming	Army	16 - 17 June
Softball	Marines	15 July

(Maj Reilly/42201)

2. EXPENDITURES FOR CHINESE CLASSICAL THEATER (Unclass): Major Parmley, Special Services Officer, Headquarters USARYIS advised this date that the total cost for support of the Chinese Classical Theater came to \$1,904.50. This expenditure exceeds the total funds allocated by the three (3) services (Air Force, Marines and Army) for support of entire live entertainment program for the balance of FY 58 by \$404.50. Major Parmley advised that it will be necessary for the Air Force and Army to contribute an additional \$500.00 each to cover the cost of the program and leave sufficient funds for other activities scheduled for the balance of FY 58. (Maj Reilly/42201)

3. VOLUNTARY EXTENSION OF FOREIGN SERVICE TOUR (Unclass): A letter has been received from Headquarters PACAF prescribing the procedures for voluntary extension of foreign service tours of PACAF personnel serving in isolated tour areas, i.e. AC&W sites, who desire to serve in longer tour areas within PACAF. Requests will be submitted so as to be received by the proper approving authority not later than the 15th day of the month preceding the month of submission of the applicable ZI Assignment Report or Returnee Forecast. The minimum tour that may be requested under this authority will be two (2) years or for the normal tour of the new area, whichever is shorter. Original tour plus extension will not exceed forty-eight (48) months. (Maj Watters/44138)

DIRECTORATE OF PERSONNEL

1. AUGMENTATION SELECTIONS BOARDS (Unclass): The following Headquarters Fifth Air Force message is quoted for information of all officers:

"This message is in three parts. Subject is appointment of officers in the Regular Air Force. Part I: Command Selection Board Reports from Headquarters PACAF will be due in Headquarters USAF as follows:

<u>Service Year Group</u>	<u>Due Headquarters USAF</u>
0 - 3 years	9 July 1958
4 - 6 years	16 July 1958
7 - 10 years	30 July 1958
11 - 13 years	30 July 1958
14 years and over	30 July 1958

In order that the above suspense dates can be met, PACAF Augmentation Selection Boards will convene as follows:

<u>Service Year Group</u>	<u>Convening Date</u>
0 - 3 years	9 June 1958
4 - 6 years	16 June 1958
7 - 10 years	23 June 1958
11 - 13 years	7 July 1958
14 years and over	14 July 1958

With the above schedule, there are only nine (9) days between the close of the application period and the date the first PACAF selection board will convene. Experience had indicated that applicants are slow to apply during the first part of the program, and that the majority of applications arrive during the last two (2) weeks of the period. If an application arrives in Headquarters PACAF after the board for that service year group has adjourned, Headquarters PACAF has no alternative but to forward the application to Headquarters USAF without command priority. Since command priority can award an applicant three (3) to six (6) gratuitous points to be applied to the Central Board assessment, this could cause an officer otherwise qualified to fail to be selected. Request this information be brought to the attention of all prospective applicants and that they be encouraged to submit their applications at the earliest practicable date.

Part II: With the exception of applications wherein this headquarters will be second indorsing headquarters, no applications will be forwarded to this headquarters after 15 May 1958. Beginning 16 May 1958, applications will be forwarded in accordance with paragraph 9a(1), AFR 36-5, as amended by PACAF Supplement 1.

Directorate of Personnel, 25 April 1958 - Continued

Part III: Since the beginning of this application period, numerous applications containing administrative errors have been received in this headquarters. Correction of such errors is time-consuming and causes unnecessary delays in processing of the applications. Request care be exercised to insure that applications are administratively correct and that total active Federal Commissioned Service has been accurately computed prior to forwarding applications to this headquarters." (Lt Col Moody/48101)

2. AIRMAN PROFICIENCY TEST SCORING SYSTEM (Unclass): At the present time, APT scores are rated in one (1) of three (3) categories: A(Passing), B(Borderline), and C(Failing). Categories A and C are self-explanatory. Commanders have the prerogative of determining whether airmen who score in Category B should be retested or meet a classification board to determine whether or not he possesses the knowledge required for award of the AFSC. A query has been received from Headquarters Pacific Air Force through Headquarters Fifth Air Force concerning the retention of the present system or returning to the "pass or fail" system. This headquarters recommended returning to the "pass or fail" system. This system would not only cut down on board actions, but would eliminate any possible dissension caused by some personnel being selected for board action and others with identical scores not being selected. (Captain Raleigh/42114)

3. MONTHLY HOUSING MEETING (Unclass): As a result of the monthly housing meeting, conducted on 21 April 1958, it was determined to travel a total of forty (40) Air Force personnel on the July "7-A", to arrive Okinawa approximately 7 July 1958. Of this total, thirty-five (35) were airmen and five (5) were officers. All officers were those assigned to Kadena Air Base. Twenty-one (21) airmen were from Kadena Air Base, and fourteen (14) were from Naha Air Base. On the monthly Consolidated Waiting List, published as of 1 April 1958, the 7A List was programmed to include all officers through 30 October 1958 and all airmen through 22 October 1958.

It was, also, decided at the meeting to project the number of personnel to be placed on the July "7-B" Priority Travel List to arrive Okinawa late July 1958. The following was projected: Sixty-two (62) Air Force personnel may be placed on the "7-B" List - Nine (9) officers from Kadena Air Base and three (3) officers from Naha Air Base; thirty-nine (39) airmen from Kadena Air Base and eleven (11) from Naha Air Base. This list will take officers through 15 November 1958 and airmen through 14 November 1958, making the present waiting period for assignment to government quarters approximately thirty-six (36) weeks for officers and thirty-nine (39) weeks for airmen. (Major Reilly/42201)

4. REENLISTMENT UNDER THE PROVISIONS OF PARAGRAPH 8E, AIR FORCE REGULATION 35-81 (Policy on and Procedures for Assigning Former Military Personnel Enlisting in the Air Force) AND REENLISTMENT UNDER THE PROVISIONS OF PARAGRAPH 16.2, PART ONE, CHAPTER ONE, AFM 35-11 (Unclass): Applicants for reenlistment who possess a skill not listed in Attachment #1, Air Force Regulation 35-81 will be reenlisted through the recruiting service only. Reenlistment for base of choice or technical training under the provisions of paragraph 16.2, Part One, Chapter One, AFM 35-11 still remains in effect. (Maj Watters/44138)

5. RETURNEE FORECAST REPORT (Unclass): This office is in receipt of a message from Headquarters, Fifth Air Force changing the forecast procedures pertaining to certain career fields. The following career fields are affected:

20-Intelligence	42-Aircraft Accessories Maintenance
22-Photomapping	43-Aircraft Engine Maintenance
27-Air Traffic Control and Warning	46-Munitions and Weapons Maintenance
29-Communications Operations	47-Motorized and Miscellaneous Equipment Maintenance
30-Radio-Radar Systems	53-Metal Working
31-Guided Missile Systems	75-Education and Training
33-Atomic Weapons	Career field sub-division 641-Warehouse
36-Wire Maintenance	Supply, Supply Inspection,
40-Intricate Equipment Maintenance	Organizational Supply
	643-Fuel Supply and Fuel Laboratory

Items of information are the same as required in paragraph 5, Chapter 6, Part Three, Air Force Manual 35-11 (Oversea Returnee Forecast Report). Air Force Manual 35-11 and Air Force Manual 171-5 (Statistical Control Technical Procedures) will be amended accordingly. This change applies to personnel with previous experience in the guided missile career field. (Maj Watters/44138)

1. VISIT OF MAJOR JACK C. BUSHMAN ON PERSONAL AFFAIRS ACTIVITIES
(Unclass): Major Jack C. Bushman, guest of Commander-in-Chief, Pacific Air Forces, arrived Kadena Air Base, 1615 hours, 30 April 1958. His purpose was to tour installations of the command for briefings on Personal Affairs activities. Major Bushman was met by Major A. E. Reilly, who served as Division Escort Officer for his visit. In view of a receipt of an emergency call to the effect that his father is critically ill, Major Bushman interrupted his tour and returned to the CONUS. Escort Officer arranged airlift for Major Bushman to Hawaii on a C54 aircraft, which departed Kadena Air Base, 0920 hours, 1 May 1958. All arrangements for Major Bushman's briefings on Okinawa were cancelled same date. Commander, Clark Air Base, Philippine Islands, Chief, Personnel Services, Pacific Air Forces and Commander, Fifth Air Force have been advised of the curtailed tour and informed that Major Bushman plans to resume his PACAF tour in the near future. Colonel Floyd Gudgeon will arrange for revised tour. (Major Reilly/42201)

2. FIFTH AIR FORCE PERSONNEL, TRAINING, AND UTILIZATION TEAM VISIT (Unclass): The Headquarters Fifth Air Force Personnel, Training, and Utilization Team arrived on Kadena Air Base on 28 April 1958. The team is composed of Captain Eugene Berry, M/Sgt Olsen, T/Sgt Putnam, and S/Sgt Martin. The purpose of this staff visit by the team, is to audit Officers and Airmen's Records and check OJT in the 6313th Air Base Wing, 623rd AC&W Squadron, and 18th Fighter Bomber Wing. They will terminate this visit on 12 May 1958. (Captain Raleigh/42114)

3. PACAF CONFERENCE PISTOL MATCH (Unclass): Captain James S. Roberts, the 6313th Air Base Wing Provost Marshal, has been selected as the Project Officer for the 1958 PACAF Conference Pistol March Qualification competition for PACAF units on Okinawa. He will hold this qualifying match on 6 May 1958. Appropriate trophies will be awarded to personnel on the high team and with individual high scores. The certified score sheets will be forwarded to the PACAF Conference Project Officer. He will select personnel with the highest scores to participate in the final PACAF match at Yokota Air Base, Japan, on 28-29 May 1958. Final selection of individuals to represent PACAF in the Air Force championship matches at Lackland Air Force Base will be determined from this match.

1. ELECTRICAL POWER PRODUCTION SUBDIVISION (Unclass): We have been advised through channels by Headquarters USAF that during the past several months it has been impossible to furnish appreciable overseas manning assistance in "5" and "7" skill level specialties of Electrical Power Production Subdivision. The situation results from unfavorable Zone of Interior-Overseas ratio, shortages at higher skill levels, and need to conserve skilled eligible for overseas resource for high priority projects. A number of apprentice airmen are available. Most are entering the Electrical Power Production Subdivision as directed duty assignees. The major portion of World-Wide O-J-T Capability for upgrading directed duty assignees in these specialties rests with overseas commands. Therefore, during the next few months, we will be allocated increasing numbers of directed duty assignees in Electrical Power Production Subdivision to be applied against higher skill level requirements.

2. PACAF MANAGEMENT PROGRAM (Unclass): A letter has been received from Fifth Air Force which stresses the increasing need for a higher level of effectiveness due to the reduction in manpower. This can be accomplished through the means of training and planned utilization of our manpower resources by trained managers through good management. The Air Force "Management Course for Air Force Supervisors (Mgt 1)" was established for the purpose of insuring good management. It has been noted that some commanders are not meeting the requirements established by AFR 50-37 that all first and second level supervisors must complete this course. This information was passed to all units for necessary action to insure that all supervisors are aware of it and the importance of management training in this command. During the past 18 months, excellent management training courses have been available to all units of this command, however, many classes have not been filled. This indicates a lack of support for this program. All commanders were again requested to fully support the program in order to gain the maximum utilization of our personnel resources. The units conducting the training were requested to increase the size of their classes from 20 to 25 so that this training will be available to the maximum number of personnel possible. 1. REST CENTER COUNCIL MEETING (Unclass): Major Alvin E. Reilly attended a meeting of the Rest Center Council, 20 May 1958, 1000 hours, at Headquarters, USARYIS. A review of the Monthly Financial Statement of the Rest Center operation ending 30 April 1958 indicates a profit of \$3,197.71 for the month's operation. During the month of March 1958 the Rest Centers lost \$1,394.72. A recommendation of the Special Services Officer, Headquarters, USARYIS to discontinue operation of Field Ration Messes at Okuma and Yaka was discussed. Through discussion it was brought out that the discontinuation of the Field Ration Messes would help to generate additional revenue for the Rest Centers; however, the lack of a Field Ration Mess will prove more costly to families utilizing the Rest Centers. As a result, the motion was tabled until the Special Services Officer can provide the Council with further justification on his proposal. (Maj Reilly/42201)

2. FIELD GRADE OFFICER CLASSES AT THE 313TH AIR DIVISION MILITARY ACADEMY (Unclass): The Field Grade Officers' class that was scheduled to commence on 26 May 1958 has been cancelled. TOTAL	19	63 (Maj Reilly/42201)

2. PROPOSED GOLF COURSE PROJECT (Unclass): Major Reilly and Mr. Ramos attended a conference with Colonel Farnell, Lt Colonel Laybourn and Lt Colonel Kiick to discuss funding action for construction of the proposed golf course. It was resolved that the allocation of \$75,000 from PACAF be taken in the accounts of the Division Consolidated Non-appropriated Welfare Fund, for which dollar transfer request be made, whenever payments for the project are to be made. Title I of the project will be undertaken by the Golf Sundry Fund. It was further determined that the 313th Consolidated Nonappropriated Welfare Fund will be responsible for negotiating Title II...Supervision and Inspection and Construction Contract. Transfer of funds from the Sundry Golf Fund will be made whenever the need arises. (Major Reilly/42201)

3. CURTAINS FOR KEYSTONE AND OLYMPIC THEATERS (Unclass): Mr. Roscoe, Regional Representative, Army-Air Force Motion Picture Service, advised this date that there would be a delay in receipt of curtains for the Keystone and Olympic theaters. 6. AIRMAN MANNING (Unclass): Since August 1957, this command has experienced a continuing reduction in airman personnel manning due to early returns for discharge, curtailment of personnel in surplus AFSC's, curtailment of surplus airmen in units that were discontinued and forced reduction in pipeline input. Consequently, our manning has dropped to approximately 100%. The resumption of normal input from the Zone of Interior, however, will not offset certain future projected losses. Within the next several months, we must expect that our "effective" manning will be considerably less than 100%. Therefore, it becomes increasingly important to encourage extensions of overseas tours, especially those of key airmen. Personnel serving in AFSC's that are short command wide should be encouraged to extend their overseas tour in accordance with AFM 35-11. Every section should insure that manning documents reflect accurately, by numbers and AFSC, the most realistic distribution of available manpower spaces in current and future CMOP's. (Maj Watters/44138)

7. REENLISTMENT (Unclass): A recent PACAF interim change to AFR 39-14 precludes personnel possessing AFSC's which are listed as "surplus" from taking "short discharges" for the purpose of immediately reenlisting to fill their own vacancy. (This restriction can be expected to drastically reduce a heretofore excellent reenlistment rate within the command. Under previous ground rules for the computation of the reenlistment rate, the majority of such individuals would have to be considered as eligible to reenlist at the time they return to the CONUS). Coincident with the above the Reenlistment Rate Report (RCS: PACAF - P40) has been discontinued and the Monthly Base Reenlistment Meetings are no longer mandatory. Kadena and Naha Air Base reenlistment figures will continue to be received by 313PC-A in May and June 58, and may be continued beyond 1 July 1958. Both Kadena and Naha Air Bases have been encouraged to continue the monthly meetings and concentrate on personnel who possess other than surplus AFSC's. (Maj Watters/44138)

Directorate of Personnel, 28 May 1958 -- Continued

8. INVOLUNTARY EXTENSION OF FOREIGN SERVICE TOURS (Unclass):

A reply to the 313th Air Division request for authority to involuntarily extend the foreign service tours for a maximum period of three (3) months in the case of critically short airmen necessary to the air defense mission has been received. Headquarters, Fifth Air Force has granted authority to retain such personnel not to exceed the end of the month following the month for which the Zone of Interior assignment is furnished. This in no way affects forecasting procedures or receipt of assignments. It merely grants authority to delay the departure on an individual for approximately one (1) month without his consent. Individuals must have the Control AFSC of 423XO, 431XLC or 432XO and be performing duty in it. (Maj Watters/44138)

However, due to the movement of the 6023rd Radar Evaluation Flight to Naha Air Base by 30 August 1958, it was decided to allocate the forty-four (44) available houses to the movement of this unit, in lieu of using them for travel of families from the ZI and/or private rentals in late August 1958. Dependent Travel for the 6023rd Radar Evaluation Flight is scheduled as follows:

Ten (10) families to arrive o/a 20 July 1958	- 3 Officers and 7 Airmen
Fifteen (15) families to arrive o/a 10 August 1958	- 4 Officers and 11 Airmen
Nineteen (19) families to arrive o/a 30 August 1958	- 0 Officers and 19 Airmen
TOTAL: 7 Officers and 37 Airmen	
GRAND TOTAL: 44	

Additionally, the Kadena Air Base Housing representative advised that two (2) officers on the Waiting List could also be included for travel during this period. Therefore, the 8-B Priority Travel List will only include two (2) officers from the Zone of Interior for assignment to Government Quarters and any private rental applications for this period of travel.

1. PERMANENT PROMOTION TO LIEUTENANT COLONEL (Unclass): The following officers have been selected for permanent promotion to Lieutenant Colonel:

<u>GRADE</u>	<u>NAME</u>	<u>AFSN</u>	<u>ORGANIZATION</u>
Colonel	Glenn T. Eagleston	9438A	Hq, 313th Air Division
Lt Colonel	William A. Beard	8428A	Det #1, 313th Air Division
Lt Colonel	Peter F. English	9313A	Hq 313th Air Division
Colonel	William S. Chairsell	8501A	18th Fighter Bomber Wing
Lt Colonel	Charles H. Clark	9639A	6313th Air Base Wing

Officers who have completed eighteen (18) years of Promotion List Service will be promoted after confirmation by the Senate or after 1 July 1958, whichever is later. The remainder will be promoted after completion of eighteen (18) years of Promotion List Service through 18 December 1958. (CWO Taylor/48101)

2. CENTRAL FLIGHT STATUS SELECTION BOARD (Unclass): The 1958 Central Flight Status Selection Board will convene in Headquarters, USAF this fall to consider certain rated personnel for permanent suspension from flying status.

The following categories are subject to mandatory review. An "as of" date of 30 June 1958 will apply to age factors.

- a. All pilots thirty-five (35) years of age and over who do not have a senior pilot rating.
- b. All pilots and senior pilots forty-three (43) years of age and over who do not have a command pilot rating.
- c. All navigators and aircraft observers thirty-five (35) years of age and over who do not have their respective senior ratings.
- d. All navigators and aircraft observers forty-three (43) years of age and over who have not accrued 3000 hours of creditable flying experience.

NOTE: Single rated aircraft observers who are rated to perform duty only as Aircraft Performance Engineers (AFSC 4324) or as Armament Operations Officer (AFSC 3244) will not be reported.

Major Commanders may waive the mandatory reporting of rated officers provided officer concerned has logged at least 100 hours jet flying time. Major Commanders may also waive mandatory reporting provisions when officer concerned has been assigned primary duties as an aircrew member for a period of at least six (6) months immediately prior to 30 June 1958 and the performance of such duty is considered satisfactory.

Directorate of Personnel, 9 June 1958 - Continued

In addition to the mandatory review, all other rated officers will be screened and those who fall within the following categories will be reported.

a. Those rated officers who have sufficient years of rated service to be eligible for an advanced aeronautical rating, but do not possess the additional prerequisites for such ratings.

b. Those rated officers who have already acquired advanced aeronautical ratings but who have not exhibited interest in the maintenance of professional qualifications compatible with their grade and years of rated service.

Dual rated officers such as Pilot-Navigator or Pilot-Aircraft Observer will be identified and reported as pilots. To assist in this evaluation, each officer concerned will be required to include a statement in his indorsement to the effect that proficiency is or is not being maintained in his aircraft observer or navigator specialty. Breaks in service and fortunes of assignment are significant; however, continued retention on flying status cannot be justified on the basis of these factors alone.

Review of Air Force officer's records by the Central Flight Status Selection Board does not reflect unfavorably on the individual, nor does it mean that he will automatically be removed from flying status. Officers who are reported for the detailed review will be removed from flying status only if it is finally determined by the Central Board that they lack rated potential. (CWO Taylor/48101)

5. UP-GRADE TRAINING FOR FISCAL YEAR 1959 (Unclass): Information was received from Headquarters, USAF, through channels, concerning the number of personnel who must be up-graded during Fiscal Year 1959. A total of 105,528 personnel must be up-graded Air Force-wide, of which 86,117 are from the three (3) to the five (5) skill level and 19,411 from the five (5) to the seven (7) skill level. Headquarters, USAF furnished a listing of AFSC's in which the training is to be conducted and recommended that commands establish quotas. Neither Pacific Air Forces nor Fifth Air Force imposed any quotas since PACAF units have, in the past, exceeded their share of USAF up-grade requirements. This information was passed to all units with the request that continued emphasis be placed on OJT to insure that Fiscal Year 1959 requirements are met. (Capt Lynch/42144)

2. USAF SMALL ARMS MARKSMANSHIP TRAINING PROGRAM (Unclass): In accordance with information previously received from Headquarters USAF and Fifth Air Force, the following instructions were sent to all assigned and attached units:

All organizations will schedule personnel to fire on the range with the least possible delay. The record of this firing and subsequent firing will be maintained in the remarks section of 313th Air Division Form 22 (Individual Training Record). All personnel who fail to qualify as "marksman" will be given additional instruction as necessary and be scheduled to fire again. This training cycle will continue as long as necessary to achieve the desired qualification of "sharpshooter" for personnel required to wear their weapon in performance of their duty and "marksman" for all other Air Force personnel with the exception of chaplains, WAF's, medical personnel, and personnel classified as non-combatant. (Capt Lynch/42144)

3. OPTIONAL SUMMER UNIFORM (Unclass): Information received from Headquarters, USAF which indicates our request for waiver of paragraph 16, Section B, AFM 35-10 (Service and Dress Uniforms for Air Force Personnel), to authorize the wearing of trousers of the authorized shade 193 fabric with the summer cotton shirt shade 505, is before the Permanent Air Force Uniform Board. We were further advised that a decision on the recommendation may be anticipated this month. (Maj Reilly/42201)

2. (UNCLASSIFIED) Supplemental Agreement No. 7 to Contract AF 62(321)-813 with Stanbo Protective Coatings, Inc. for repair and repainting of five (5) 10,000 barrel above ground POL tanks. Supplemental agreement No. 7 extends the contract period of performance sixty calendar days to 5 April 1958. This is necessary because tanks were not made available to the contractor and delay is not due to his fault or negligence.

3. (UNCLASSIFIED) A site investigation was made on 11 Feb 58 under Contract AF 62(321)-903, construction of 7th TDS facilities. As a result of this investigation the following was determined:

a. Work is progressing at as fast a rate as possible under the limiting factor of delivery dates of critical materials, especially electrical items.

b. All critical items are scheduled for arrival on the Island by 22 Feb 58 and are to be in place ten (10) days after arrival.

c. Estimated date of completion is set at 5 March 1958 with no foreseeable causes for delay.

d. The Contractor is placing first precedence on a rapid, efficient completion of the project.

1. (UNCLASSIFIED) Supplemental Agreement #4 to Contract AF 62(321)-962 with Peterson-Sharpe Engr. Corp. Contract for repair of SAC Quonsets on the flight line at Kadena Air Base. SA #4 is for change in scope of work. The contract specifications for Project KAD-163-57 through KAD-173-57 are amended as outlined in Addendum No. 1, dated 11 February 1958, which incorporated into and made a part of the contract, at no additional cost to the Government. The Addendum permits the substitution of buildings and adds electrical work. Drawings for these projects were also reavised. Project KAD-162a-57 remained unchanged.

2. (UNCLASSIFIED) A meeting was held on 17 February 1958 for the purpose of itemizing the individual problems under contract AF 62(321)-931, rehabilitation of Family Quarters (Morgan Manor, Jennings and Arnold Terrace) and to determine how the contractor will correct them. Representatives from Installations Engineers went over the various discrepancies with the contractor and discussed method of correction. In conclusion, it was agreed that the contractor would concentrate all his efforts on a single unit, where AIO Inspectors can observe the complete operation, thus an example for reference. (Lt.
